A Better Way To Lift
Product code: ABWL-4013.02.0001  Runtime: 14  Spanish: yes

“The presenter, Michael Melnik, is a leading speaker on back injury prevention to the fortune 100. He has a very charismatic approach that energizes the audience with his comedic style and delivery. His success in helping organizations bring down claims and their costs relating to back injuries is through the understanding that the lift has to be better, not just safer. This energized presentation will bring the viewer a whole new perspective about lifting, material handling and back safety.

A DUI Story...What If?
Product code: DUIS-4002.01.001.0014  Runtime: 28  Spanish: yes

The National Highway Safety Organizations alcohol accident statistics show that 30% of weekday automobile accidents and 51% of weekend accidents are alcohol related. This presentation shows us just how dramatically a DUI affects the lives of family members and friends, the physical effects of alcohol consumption, and how easy it is for a few drinks to turn into life-altering devastation once a person gets behind the wheel.

A Good Samaritan’s Guide To First Aid
Product code: GSFA-4003.02.033.0066  Runtime: 50  Spanish: no

Program meets Red Cross, American Heart Association and OSHA standards for Basic First Aid. Includes bleeding, animal bites, stings, shock, fainting, strokes, and other required topics. Each topic is separated by a stop sign, allowing you to stop the video and provide hands-on demonstrations or testing.

A Million Excuses...
Product code: MILE-4003.02.000.0130  Runtime: 10  Spanish: no

This online training safety video strikes a blow to the heart of complacency. In the main part of this health safety video, dozens of typical excuses for why safety guidelines or safety equipment are ignored are each answered and rebutted. This safety training video keeps the viewers attention with it’s off the wall responses and workplace safety guideline that are conveyed to the viewer. All around, this occupational health and safety training program is an important health and safety video.

A Supervisors Guide To Absenteeism and Tardiness
Product code: SGAT-4003.02.000.0114  Runtime: 15  Spanish: no

Outlines a useful six step program for dealing with absenteeism and tardiness. Provides a list of some of the myths and truths regarding these issues, and explains the concepts, methods, and follow-up necessary by the supervisor to achieve company goals in reducing absenteeism and tardiness.

Accident Causes and Prevention: Identifying Unsafe Acts
Product code: ACPU-4003.02.033.0047  Runtime: 11  Spanish: yes

Most workplace accidents are caused by unsafe acts on the part of employees. This could mean using unsafe equipment, or not adhering to personal protective equipment training. This accident safety training video looks to help both management and labor reduce the number of unsafe actions taken by employees.

An Introduction To The Globally Harmonized System
Product code: IGHS-4001.05.033.0007  Runtime: 19  Spanish: no

An Overview of an Incident Command System
Product code: OICS-4003.02.001.0121  Runtime: 14  Spanish: no
If your workplace was to suffer a catastrophe, would your employees know how to handle it? Use this film to teach your workers what to expect in the case of an emergency, so that everyone can be working together towards a common goal.

An Overview of Crane Safety
Product code: OCNS-4004.02.008.0011  Runtime: 13  Spanish: no
As 1/3 accidents occur near or under the load and 1/3 are due to support failures, it is important that anyone working around a crane watch this crane safety video. This OSHA crane safety training program is a complete overview of crane safety from setup, to rigging safety, to roll-over prevention, to safety tips like how to avoid interaction with power lines because electrocution by power lines is number 1 cause of fatalities, to crane rigging safety.

Asbestos Safety and Awareness
Product code: ABSA-4003.02.000.0054  Runtime: 7  Spanish: no
An estimated 10,00 people die in the United States each year from an asbestos influenced illness. Use this film to show the dangers at work and at home that are inherent to asbestos, and the proper precautions to take when dealing with it.

Auto Shop Orientation and Safety Training
Product code: ATOS-4003.02.033.0029  Runtime: 14  Spanish: no
An auto shop is more than just a place to fix cars, it is an environment with frequent accidents. Train your employees on basic fleet shop safety with this informative video that covers everything from personal protective equipment such as gloves and goggles, to electrical safety when working with hand-held tools. Make your shop a safe shop.

Avian Flu: Awareness and Prevention
Product code: AFAP-4003.02.033.0022  Runtime: 11  Spanish: no
The avian flu kills 55% of the people that it infects. Help stop the spread of the flu and distribute proper awareness with the information on this training video. Make sure that those who are sick stay home, and that those who are healthy stay that way.
Back and Ergonomic Safety For School Bus Drivers

Product code: ERSB-4007.02.001.0010  Runtime: 23  Spanish: no

Bus drivers face a number of health risks while driving a school bus. This video serves to educate bus drivers on the potential risks and how they can do their part to prevent them and work with them for their best health and safety on the job.

Back Injury Prevention Through Proper Lifting Techniques

Product code: BIPT-4003.02.000.0132  Runtime: 10  Spanish: no

Safe lifting in any conceivable situation is profiled in this video, as well as detailing the 10:1 lever principle. In addition to proper lifting techniques, this film also describes the anatomy of the back, as well as helping in preventing slips and falls. Injuries such as a bulging disc are also shown on this safe lifting video, as are safe lifting techniques and general back safety training.

Back Safety for Drywall Workers: Stretch and Flex

Product code: BSDW-4012.01.000.0003  Runtime: 13  Spanish: no

This is a great safety training video for all drywallers! It covers safety tips to combat the major reasons for drywaller injury. Safety manual handling of drywall is covered; including carrying it up and down stairs. Also proper stretching is covered in depth, because of the unique muscle groups that drywallers use on a daily basis.

Back Safety For The Contractor: Stretch and Flex

Product code: BSSF-4012.01.000.0001  Runtime: 13  Spanish: yes

This excellent back safety training video focuses on the concerns of the contractor. Major topics covered include lifting safety around the jobsite as well as general construction back safety rules in dealing with different job situations and equipment. A truly unique and fantastic back training video.

Back Safety: Back Basics

Product code: BSBB-4013.01.000.0002  Runtime: 13  Spanish: no

Back Safety: Back Basics

Back Safety: Exercise and Ergonomics

Product code: BSEE-4002.01.001.0007  Runtime: 15  Spanish: yes

They say you never notice the parts of your body until they hurt. This video stresses the importance of back safety training and discusses not only the risks involved in everyday body movement, but also the ways to prevent those risks from turning into debilitating back injuries. This back safety video presentation stresses a proactive approach including proper health through exercise and ergonomics safety. Information is offered on how to properly move through each day without adding undue strain and stress on the body. Viewers will be shown a range of basic stretching techniques as well as other methods and tips for safe lifting and healthy movement. Things such as a safety squat, ergonomic lifting, back injury prevention, stretching techniques and general OSHA lifting training are all covered in detail.
Back Safety: How To Lift
Product code: BSHL-4013.01.000.0006  Runtime: 20  Spanish: no

Back Safety: Injury Prevention Strategies
Product code: BSPS-4013.01.000.0004  Runtime: 13  Spanish: no

Back Safety: Proper Lifting Procedures
Product code: BSLP-4002.01.001.0006  Runtime: 16  Spanish: yes

Back injuries frequently occur in the workplace during lifting. The tips and techniques provided in this video will offer alternatives to lifting or carrying and will show the benefits of using helpful tools like dollies and carts to prevent back injuries. Viewers will learn the necessary step-by-step safety procedures to prepare the body for safe lifting as well as instruction on how to properly lift under any circumstance.

Back Safety: Risk Factors
Product code: BSRF-4013.01.000.0003  Runtime: 16  Spanish: no

Backhoe Operator’s Safety and Responsibility
Product code: BOSR-4003.02.033.0030  Runtime: 7  Spanish: no

Backhoe operators are skilled professionals who need skilled training to perform their job safely. This backhoe training video gives backhoe operators the basics on how to safely operate and maintain their backhoe on a daily basis. Video includes instruction on pre-trip inspections and maintenance checks. Viewers will be shown how to maintain control and avoid damage during loading, digging, refueling as well as during times when the backhoe is parked and not in use. Backhoe safety is the name of the game.

Backhoe Safety: Inspection and Walk Around
Product code: BSIW-4001.05.033.0011  Runtime: 14  Spanish: no

Covers the safety process required prior to using a backhoe. This video follows a checklist through the walk around inspection that insures the equipment’s safety before utilization. Topics include: checking fluid levels, connections to interchangeable equipment, guard and shield safety check, and inspecting the hydraulics.
Backing Accident Prevention For The Sanitation Driver

Product code: BASD-4003.02.000.0171  Runtime: 10  Spanish: yes

Solid Waste vehicles are large and in charge, it is not like driving you everyday vehicle. Thus, especially in regards to backing like this driving safety video focuses on, there are many different things that you need your employees to pay attention to. Teach them about the cone of invisibility, making sure children and pedestrians are not in harms way, getting out and looking (or GOAL) when they are unsure, how to properly navigate backing in a landfill, as well as how to communicate with a spotter and the ANSI specific hand signals.

Back Up Procedures For School Bus Drivers

Product code: BPSB-4007.02.001.0003  Runtime: 20  Spanish: no

Understanding how to safely and effectively back up a school bus is one of the most important things a bus driver must learn. In this video, backing procedures for a number of backing techniques will be shown in a step-by-step format. An essential for any school bus driver.

Backing, Parking and Intersections

Product code: BPIN-4002.01.001.0008  Runtime: 18  Spanish: yes

Back, parking and driving thru intersections are three extremely vulnerable moments for a driver and all demand the proper knowledge, skill and attention to navigate safely. This presentation will show how to prevent the usual hazards that present themselves when backing, parking and at intersections through driving safety tips dealing with stopping distances, distractions while driving, fixing bad driving habits and other vehicle safety tips like not following too closely. Instruction will be provided on minimizing distractions, handling blind spots and preventing accidents through safe driving and awareness.

Bad Weather Driving

Product code: BDWD-4008.01.014.0004  Runtime: 20  Spanish: no

Weather: nobody can control it. But, with proper training, you can control how your workers handle driving in bad weather. This online safety training video will walk viewers through the process of how to deal with various bad weather situations and to improve driver training by utilizing real clips showing bad weather conditions and driving safely in all climates. Topics include: winter ice, sleet, snow, rain, wind, and the S.A.F.E. system for bad weather driving. This video is a great addition to your library of online defensive driving course materials and has many excellent safe driving tips.

Batteries Not Included: The Energized Approach to Successful Training Results

Product code: BEZA-4013.01.000.0012  Runtime: 31  Spanish: no

Batteries Not Included: The Energized Approach to Successful Training Results
Becoming A Great Valet Parking Attendant

**Product code:** BGVP-4003.02.000.0170  **Runtime:** 15  **Spanish:** no

Today’s valet can have more responsibilities than merely parking cars, and they are all covered in this safety training video. Slips trips and falls, lifting safety and preventing back injuries (especially out of car trunks), proper customer vehicle operation and respect, and how to handle and avoid an accident whether in a vehicle or out.

Bed Bugs: Identify, Remove and Prevent

**Product code:** BUGS-4003.02.000.0124  **Runtime:** 9  **Spanish:** no

Nobody wants to wake up with bug bites on their arms or to find their sheets riddled with dead bugs. This video attempts to train the viewer on the reality of bed bugs and how to prevent them. It covers daily inspections, as well as more intense maintenance inspections. Geared towards both housekeeping and maintenance staff, this video is a must have for any hotel.

Benzene Safety

**Product code:** BENZ-4003.02.000.0173  **Runtime:** 14  **Spanish:** no

Benzene Safety

Blink! A Practical Approach to Workplace Stretching

**Product code:** BWSE-4013.02.0002  **Runtime:** 11  **Spanish:** yes

"The presenter, Michael Melnik, is a leading speaker on back injury prevention to the fortune 100. He has a very charismatic approach that energizes the audience with his comedic style and delivery. This energized presentation will bring the viewer a whole new perspective about being prepared for lifting, material handling and back safety by doing some very short easy stretches, which he calls BLINKS! These effective techniques have been used to help successfully drive down injuries, claims and their related costs.

Blink! A Practical Approach to Workplace Stretching - Management Edition

**Product code:** BWSM-4013.02.0003  **Runtime:** 11  **Spanish:** yes

"The presenter, Michael Melnik, is a leading speaker on back injury prevention to the fortune 100. He has a very charismatic approach that energizes the audience with his comedic style and delivery. This energized presentation will bring the viewer a whole new perspective about being prepared for lifting, material handling and back safety by doing some very short easy stretches, which he calls BLINKS! These effective techniques have been used to help successfully drive down injuries, claims and their related costs.

Bloodborne Pathogens Training

**Product code:** BBPT-4003.02.000.0070  **Runtime:** 21  **Spanish:** no

Due to the seriousness of diseases transmitted through the blood, bloodborne pathogen exposure awareness and safety training is an acute topic that is required by bloodborne pathogens OSHA training. This bloodborne pathogens video covers the various diseases that can spread and the different fluids that can spread them. It covers proper personal protective equipment training for contact with such fluids as well as a recent update from OSHA that is necessary for each employee to know about.
Bloodborne Pathogens: Exposure Control

This video uses an effective, mildly graphic, true to life incident to emphasize the importance of bloodborne pathogens awareness and training. Topics include potential diseases, ways to contract illnesses, and proper prevention methods such as personal protective equipment.

Bobtailing and Jackknifing Safety For CDL Drivers

This two-part presentation trains CDL drivers on proper techniques to avoid and operate safely when bobtailing or when an jackknife incident is possible because of the need for extreme braking. Quick-tips are given on how to safely bobtail if it is necessary. Also, in section two, the braking science of how a jackknife occurs will be discussed in detail as well as how to keep the axles from locking or making a better choice for maneuvering with steering.

Bomb Threat Awareness

While bomb threats are rare, it is important to have a plan in case of such an emergency. This video gives information on preventative measures as well as threat assessment and correct evacuation procedures. It even covers bomb search procedures, like looking for out-of-the-ordinary packages and objects.

Box Cutter Safety

One of the most commonly used and least often safely used tools is the box cutter. This utility knife safety training video aims to make safe use of box cutters the norm, rather than the exception through many visual examples of safe usage. Whether it is knife safety, razor blade safety, or box cutter safety that you are after, the knife safety tips on this box cutter safety training video will surely emphasize box cutter safety in the workplace.

Casino Safety Basics
Product code: SINO-4003.02.000.0137  Runtime: 11  Spanish: yes

Cover 11 important casino safety topics in 11 minutes with this safety training online program. Topics covered include: customer safety, cart safety, slip and fall safety, ladder safety, walking surface safety, hearing protection and other PPE safety, back safety, lifting safety, fire extinguisher safety, emergency safety, and general knowledge of safety awareness, or that accidents can happen at any time. This entire video was filmed inside different parts of a casino, including many behind-the-scenes areas not open to the public.

Cell Phones and The Professional School Bus Driver
Product code: CPBD-4007.02.0039  Runtime: 1  Spanish: no

Chainsaw Safety
Product code: CSAW-4001.05.010.0006  Runtime: 13  Spanish: no

Public works and other occupations often use chain saws in tree trimming, landscaping maintenance, brush control, and home use. There are many risks involved requiring proper instructions on safe procedures. Includes instruction on how to use the proper daily safety precautions during use of cut off saws on the job. Covers use of proper PPE and machine guarding. Outlines safety procedure from pre-use inspection all the way to shutdown. Gives viewers the information they need to know for each operator to remain responsible for their own safety by following safe operating practices.

Chainsaw Safety Basics: An Expert’s Perspective
Product code: CSEP-4001.02.001.0020  Runtime: 14  Spanish: no

Chainsaw Safety: Real Accidents, Real Stories
Product code: CHRR-4002.02.001.0019  Runtime: 11  Spanish: no

The team lead is looked at to set the tone of the workday. Follow what can happen when that team lead, or any worker, doesn’t follow required safety guidelines and safety procedures in this behavior based safety training program. This chainsaw safety video covers issues like PPE and cutting procedures for chainsaws in a unique and influential way. Make sure your employees know why you require them to do work your way, the safe way, with the story told on this excellent training film. Give them some proof that complacency for a day can effect you for the rest of your life.
Chemicals, Supplies and Equipment: Safety For Custodial Services and Maintenance Personnel
Product code: CSCM-4003.02.000.0104  Runtime: 14  Spanish: yes
Conforms to the OSHA requirements for custodial and maintenance staff for MSDS training, accident prevention, chemical safety and labeling, and electrical safety. It is a quick informative video that talks at the level of the viewer and provides safety information for most custodial procedures.

Chlorine Safety
Product code: CLRN-4003.02.0192  Runtime: 20  Spanish: yes

Confined Space Entry Training
Product code: CNSE-4004.01.008.0003  Runtime: 16  Spanish: yes
The video opens up with a typical confined space accident to show how easily confined space entry rules can be ignored. Shows how to evaluate hazards, create a permit system, safe entry procedures, choosing the right equipment and more! Gives proper instruction to each job: the authorized entrant, the attendant, the rescuer. Special focus is given to the rescuer as 60% of confined space deaths are by would-be rescuers.

Confined Space: Risk and Responsibilities
Product code: CLRR-4001.05.010.0009  Runtime: 19  Spanish: yes
Confined spaces are responsible for many deaths every year due to lack of training. This confined space video teaches employees the risks and responsibilities when working in confined spaces. Topics include: Observers role, awareness of different potentially hazardous chemicals, and maintaining your role (for example it is not the observers responsibility to rescue, that job is for properly trained personnel). Cover each person?s responsibility with this confined space training video and make sure that you are up to date with 29 cfr 1910.146 in the OSHA confined space training program.

Constructive Criticism For Better Performance
Product code: CCBP-4003.02.033.0010  Runtime: 18  Spanish: no
Constructive criticism is one of the most valuable and daunting tools in any supervisors management arsenal. This film details a successful 6 point system for criticizing constructively that aims to increase work performance without lowering moral.

Controlling Your Exposure To Silica
Product code: CEXS-4004.02.008.0023  Runtime: 12  Spanish: no
Gives information on exposure to silica and stresses the importance of prevention. Explains the origins of silica, a major component of common and essential construction materials. Shows viewers how silica gets into their system as well as how to use the proper dust control, removal and protection procedures to avoid exposure. Explains symptoms of acute and chronic silicosis and the general effects of silica exposure and what to do if they are experienced.
Convenience Store Safety and Security
Product code: CSSS-4003.02.000.0156  Runtime: 11  Spanish: no
This program educates convenience store workers, managers and owners on how to increase their awareness and will inform viewers about subjects related to individual safety, the safety of the store, and the safety of its customers. Topics covered include keeping the store clean, proper lifting procedures, preventative measures for security, and how to act and react in the event of a robbery, just to name a few.

Cop Talk: The Do`s and Don`t s of a Car Stop
Product code: CTCS-4008.01.014.0008  Runtime: 20  Spanish: no
You know that sinking feeling that you get when you see blue and red lights flashing in your rear view mirror? Well, cops feel the same way when pulling you over. This traffic stop video explains the do`s and don`t s of car stops so that the ticketing situation is as painless and safe as possible for all of those involved. Whether dealing with an unmarked police car, going to traffic court, or being pulled over in an area with no shoulder, this video aims to end the mystery and teach the viewer what cops are expecting during a traffic stop.

Courtesy Shuttle: Driver Safety Training
Product code: CSDS-4003.02.000.0106  Runtime: 11  Spanish: no
Courtesy shuttle drivers are constantly carrying your most valuable asset, the customer. Have them watch this video to represent your company to their very best. The film covers: proper attitude, driving safety, pre-trip inspection and the unique differences in driving these larger vehicles rather than their own personal vehicles.

CPR and AED Training
Product code: CPRT-4003.02.000.0165  Runtime: 31  Spanish: no

Crane Rigging Safety
Product code: CNRS-4004.02.008.0012  Runtime: 16  Spanish: no
This crane safety training video instructs crane riggers on how to rig a safe lift when working on a site with a crane. The presentation includes instruction on: selecting slings and hitches, planning a safe lift, setting up the rigging and stabilizing the load. This crane rigging safety program emphasizes rigging as a team effort between operator and riggers that can be accomplished safely when each member of the team takes safety into account and understands their own part of the process.

Crash Course: Reporting Vehicle Incidents
Product code: CCRI-4004.01.008.0015  Runtime: 16  Spanish: no
Car crashes are often unavoidable, but it`s important to know what to do after a car accident. This driving safety training video provides driver instruction on how to properly handle an auto collision, such as properly documenting the incident, making sure the vehicle`s payload is secure from the public, and just about everything else needed to ease the aftermath of these unfortunate situations.
Crossings and The School Bus Driver

Product code: CRBD-4007.02.0045  Runtime: 1  Spanish: no

CSA 2010: Safety, Compliance and Accountability

Product code: FCSA-4003.02.000.0139  Runtime: 15  Spanish: no

The Federal Motor Carrier Safety Administration has revealed Comprehensive Safety Analysis 2010 to meet the needs of the ever changing industry. The new focus is on measurement, evaluation, and intervention based on inspections of the vehicle and accident investigations. This new focus on the driving record of CDL drivers utilizes a Safety Measurement System or SMS. This CSA 2010 training video has all of the major updates and new regulations in it.

Cut Off Saw Safety

Product code: COSS-4004.02.008.0025  Runtime: 5  Spanish: no

This presentation provides instruction on how to use the proper daily safety precautions during use of cut off saws on the job. Covers use of proper PPE and machine guarding. Outlines safety procedures from pre-use inspection all the way to shutdown. Viewers will get the information they need to know so that each operator may remain responsible for their own safety by following safe operating practices.

Defensive Driving Skills For School Bus Drivers

Product code: DDSB-4007.02.001.0007  Runtime: 20  Spanish: no

School bus drivers must understand and know how to assess many conditions for safety and then drive safely in them. This program will teach drivers how to assess a variety of weather and road conditions for safety as well as how to achieve safety while sharing the road with other vehicles.

Defensive Driving: A Supervisor`s Guide

Product code: DDSG-4004.01.008.0013  Runtime: 13  Spanish: no

Being closely observed by a supervisor can make anyone nervous, especially when the supervisor is observing an employee for an entire shift. This video seeks to train managers and supervisors how to perform a successful ride along, while also showing the managers how to help the employee to feel relaxed, comfortable, and possibly to assist employees to improve their safety practices by the end of the ride along. This defensive driving for supervisors training video trains on how essential it is that employees are shown that their ride along is not a driving exam, but rather a safe driving check-up. Topics covered include: constructive criticism, positive reinforcement, and how to provide your employees driving safety tips in a non-threatening, but effective manner.
Defensive Driving: Expect The Unexpected

Product code: DDEU-4003.02.0176  Runtime: 19  Spanish: yes

Most people think they are good drivers--but that is not necessarily the case. Good driving involves accident prevention--what we know as defensive driving. This video explores the not-so-obvious points that drivers need to be aware of as they navigate through the variety of conditions and circumstances that they encounter on the road. The goal is accident prevention through knowledge and information.

Defensive Driving: I Could See It Coming

Product code: DDCC-4004.01.008.0012  Runtime: 14  Spanish: no

After automobile accidents, phrases like "I didn't see them coming" or, "they came out of nowhere" are common. This defensive driving video can provide driving education on how to correct a range of common driving mistakes, as well as teaches drivers the importance of awareness on the road. It covers such topics as: safety cushions, inclement weather, visual road scanning, stopping distance, pre-trip inspections, avoiding distracted driving, and much more. A must have for any manager whose employees are on the road, and a must see for any driver.

Defensive Driving: When Good Weather Goes Bad

Product code: DWGB-4002.02.001.0001  Runtime: 16  Spanish: yes

Inclement weather can have a dramatic effect on driving conditions. This presentation provides an overview of the various dangers that driving in bad weather poses when the weather changes suddenly. Viewers will be shown how to handle their vehicles in winter ice, bright sun, winds, snow, rain and will also see an overview of the general safety measures drivers must abide by such as vehicle braking distance or truck stopping distance. Each weather condition and risk is coupled with safety tips and methods to prevent unsafe incidents and is available for defensive driving online training.

Demolition Safety

Product code: DMLS-4004.02.008.0015  Runtime: 12  Spanish: no

This presentation gives an overview of the demolition process and outlines many of the safety measures that contribute to public and employee safety during demolition. Material touches on a number of areas including stairways, ladders, crane safety and fall protection. Emphasizes that safety is the mission and all involved in the process must take responsibility for their own safety and protect nearby structures.

Detecting Workplace Violence In The Hospitality Industry

Product code: DWVH-4003.02.0193  Runtime: 15  Spanish: yes

Detecting Workplace Violence In The Hospitality Industry

Product code: DWVH-4003.02.0193  Runtime: 15  Spanish: yes

Healthy employees show up to work more often and get more work done than unhealthy ones. This health safety training video teaches employees about the world of healthy living. The online health and safety program covers many eating topics as well as common behaviors to avoid.

Diet and Disease: How to Maintain Good Health

Product code: DDGH-4003.02.000.0131  Runtime: 11  Spanish: no

Healthy employees show up to work more often and get more work done than unhealthy ones. This health safety training video teaches employees about the world of healthy living. The online health and safety program covers many eating topics as well as common behaviors to avoid.
Disaster Preparedness; Hurricanes, Tornadoes and Floods

Product code: DPHT-4003.02.033.0002  Runtime: 15  Spanish: no

Regardless of WHERE you live, there is a potential for a disaster situation. This film covers emergency and evacuation procedures for the three most common catastrophes in the United States. In addition, it reviews emergency preparedness procedures that are common to all three circumstances, as well as many other extreme conditions.

Dishwasher Persons: Safety and Responsibility

Product code: DPSR-4003.02.000.0136  Runtime: 10  Spanish: yes

In 9.5 minutes this restaurant video covers 16 essential safety concerns unique to restaurant training, and more narrowly, to those of a dishwasher. Topics covered include: kitchen safety, waiter training, food safety and hygiene, hostess training, dishwasher safety, teamwork, maintaining a clean uniform, slips, trips, falls, PPE, cuts, burns, chemicals, how to read a chemical label, MSDS, electrical safety, electrical cords and plugs, back safety, lifting safety, and bus tub limits. This kitchen safety video doesn’t skirt over the information either, it addresses the context and issues pertinent to each subject.

Distracted Driving: Real Accidents, Real Stories

Product code: DDRR-4002.01.001.0013  Runtime: 16  Spanish: no

The following presentation will focus on the personal stories of workers and their families who were negatively affected by distracted driving accidents. Each story is unique, yet the common thread is the tragic results of becoming distracted on the road. These distractions, such as cell phone use, paperwork and on-board computers, are among several potential distractions discussed in the film. Each story becomes a teaching scenario where viewers will learn through distracted drivers training, and the actions that could have prevented each incident. These realistic situations have a resonating impact and make the lessons in this driving safety course easy for viewers to identify with and learn from.

Distracted Driving: Real Accidents, Real Stories II

Product code: DDRA-4002.02.001.0022  Runtime: 15  Spanish: yes

Currently, 20% of all crashes are related to distracted driving. In this powerful production, gut-wrenching and life-changing testimonials are illustrated to the audience. Covered in this film are how conversations can become a distraction to the driver and create a moment of inattention. Also included are two tragic stories of people and their families whose lives were impacted with fatalities due to the driver using a cell phone and the other using a navigation system while driving. Information is presented throughout the program to teach the professional driver how to choose alternative behaviors to avoid becoming a part of this growing statistic.

|                                                          |                     |         |         |
| This distracted driving training video will help to improve safety among those who drive your fleet. In this presentation on how professional drivers can prepare for safe driving, drivers will learn how to refine their driving skills while on the road. The material covered in this driving safety training video displays the host of possible distractions professional drivers face and how to avoid them. Safety practices like pre-trip planning, knowing how to handle unexpected inclement weather and handling everyday driving hazards on the job are just a few of the practices covered. |

| Driving In Extreme Weather Conditions For CDL Drivers     | DEWC-4003.02.000.0153 | 18      | no      |
|                                                          |                     |         |         |
| In this presentation, CDL drivers will be trained on the value of caution and slow driving in cases of extreme weather. Following distance and proper braking and maneuvering will be discussed, as well as what to do in cases of low visibility, fog, wind, dust, rain, ice, and snow conditions. |

| Driving Safely in the Hazards of Winter                    | DSHW-4002.02.001.0007 | 12      | no      |
|                                                          |                     |         |         |
| Driving conditions in the winter months can be full of treacherous hazards including, winter ice, poor visibility, strong winds, snow, rain, and more. This safe driving video discusses each weather condition and the risks involved with driving in each. Important snow driving tips are also given. Viewers will learn how to prevent unsafely incidents, starting with awareness, and how to generally stay safe behind the wheel despite the imminent dangers that every driver must face in the cold months. |
Driving Safely In Winter Conditions

Product code: DSWC-4001.05.010.0004  Runtime: 18  Spanish: no

This quality drivers education video depicts winter driving hazards with footage in real winter conditions in all climates. This safe driving video instructs the viewer how to recognize hazards and avoid auto accidents. This driving training video also covers driving safely in all types of inclement weather, including: winter ice, sleet, snow, rain, wind, sun glare, and even special tips to navigate roads after the first rain of the season.

Driving Safely: Reason On The Road

Product code: DSRR-4008.01.014.0002  Runtime: 15  Spanish: no

This video utilizes the S.A.F.E. system to emphasize defensive driving safety. It shows drivers the importance of alertness and time for the proper planning and execution of their driving maneuvers. It also outlines how distracted driving and bad weather driving can make planning and safety more challenging. This safety driving video also warns the viewer against texting while driving, eating while driving, and covers road rage online. A fast-paced, engaging ride -- this film is a great fit for any driver.

Drowsy Driving: It’s Your Wake Up Call

Product code: DDWP-4002.02.001.0023  Runtime: 20  Spanish: yes

This incredibly loaded program is filled with important information for the professional drivers who travels both short and long distances as a part of their workday. While addressing the 100,000+ crashes that occur each year from drowsy driving, the viewer will be taught on how to effectively identify and manage driver fatigue. Also covered in the film are: lack of sleep, stress, diet, medications, micro naps, night driving and graveyard shifts and the sleepy feeling when returning to the work after lunch.

Drug and Alcohol Awareness for School Bus Drivers

Product code: DASB-4007.02.0006  Runtime: 29  Spanish: no

Even at low doses, alcohol can impair the focus and judgement needed to operate a school bus. In this video, school bus drivers will learn the side effects of alcohol, real world examples of how drinking can affect the safety of the bus driver and the students on the bus, as well as ways to learn better judgement of how to avoid alcohol during work days in relation to short turnaround times; in other words, how to drink responsibly as a bus driver. The dangers and risks of illegal drug use are also covered as is the use of prescription medications.

Drug and Alcohol Testing Requirements For The DOT Commercial Driver

Product code: DACD-4004.02.000.0018  Runtime: 14  Spanish: no

This workplace drug testing video provides a basic overview workplace drug testing, drug test information, and the DOT drug and alcohol testing requirements for all CDL drivers. This to-the-point drug testing film covers such topics as a pre employment drug screen, the consequences of refusing a test, reasonable suspicion and marijuana drug testing, as well as proper record keeping for the results an employee drug test and information on driving while intoxicated (DWI).

Drug Free Workplace: Employee Edition

Product code: DFWE-4001.04.038.0001  Runtime: 35  Spanish: no

In this EAP video ex-substance abusers and their co-workers share their story on creating and maintaining a drug free workplace program. This EAP online / EAP training video will help to establish drug free workplace training as a major part of your company’s overall EAP program.
Drug Free Workplace: Supervisor’s Edition
Product code: DFWS-4001.04.038.0002   Runtime: 33   Spanish: no
This EAP online / EAP training video covers a supervisor’s view and responsibility in identifying, creating and enforcing a drug free workplace program. This video has become a standard in the realm of employee assistance programs.

Drywall Worker Safety: Working Safely With Stilts
Product code: DWWS-4012.01.000.0004   Runtime: 13   Spanish: no
Properly adjusted stilts should feel like a natural extension of your leg movements. Use this contractor / construction safety training video to make sure the proper steps are taken to insure safe stilt usage. Stretching, correct fitting and adjusting of the stilts, and a pre-use inspection are all thoroughly covered in this video.

Dying To Get There... The Result of Reckless Driving
Product code: DGRD-4008.01.014.0006   Runtime: 11   Spanish: no
A highly emotional video, geared towards teen drivers, which has interviews with those that have lost friends and family before their time. With fathers crying, mothers bawling, and friends still in shock due to the loss of their loved ones, this film has the ability to reach people of all ages. In addition to these emotional stories, the video revisits the reasons why these kids, and so many others, die or become injured within the first few years of obtaining their drivers licenses. It also includes safe driving tips and tells kids to be cautious until they have improved their driving skills or gone to an advanced driving school.

Earthquake Preparedness and Safety
Product code: EQPS-4003.02.000.0112   Runtime: 12   Spanish: no
Surprisingly enough an earthquake can occur in many places besides California, that coupled with the fact that earthquakes occur without warning make earthquake preparedness an important part of any emergency plan. The video teaches what to expect during an earthquake, how to react during an earthquake, and what to do following an earthquake, such as meeting in the assigned assembly area and expecting aftershocks.

Effective Communication Between Management and Employees
Product code: ECME-4003.02.033.0050   Runtime: 21   Spanish: no
Communication is essential for a company to run smoothly and efficiently. Both management and labor need to be able to express what they mean, and to get their needs across to the other. A common management deficiency is not recognizing the need to communicate which could be solved by commonly sharing the company news with employees. These are the types of situations addressed and corrected in this excellent video.

Electrical Arc Flash Safety
Product code: EAFS-4002.01.001.0015   Runtime: 13   Spanish: yes
When it comes to electricity, even the most experienced workers have a thing or two to learn. This arc flash safety program is designed to eliminate any mystery involved in electrical arc flash safety. This important electrical arc flash video will show just how much impact electricity can have on anything it comes in contact with and will reveal some secrets about voltage that can be the difference between safety and shocking reality. Consistent housekeeping, well-maintained tools, having the proper arc flash equipment and following workplace and manufacturer’s safety guidelines are all discussed as methods of prevention. The general NFPA arc flash safety procedures that must be followed when working closely with electricity will be discussed at length and make this arc flash program invaluable for anyone who works with electricity.
Electrical Safety Basics
Product code: ELSB-4003.02.033.0019  Runtime: 10  Spanish: yes
Electrical accidents account for thousands of workplace fatalities each year! This electrical safety video is designed as a basic overview for employees not accustomed to electrical work or given in-depth electrical training. It covers voltages, circuit breakers, power tool safety, as well as explaining how electricity works and the importance of a `ground.'

Electrical Safety for The Construction Worker
Product code: ESCW-4004.02.000.0028  Runtime: 28  Spanish: no
First off, this construction oriented electrical safety training video covers just about anything that you can think of related to electrical safety on a jobsite, but for comprehensiveness sake everything in the life of an electron is covered. The electrical safety video starts out with talk of how the electricity is generated and talks of how it is transferred to the public. Topics such as electrical injuries, calling ahead before digging, power lines (both overhead and underground), confined spaces, lockout tagout, hot work safety, electrocution safety, approach boundaries, temporary wiring, GCFI's, AEGCP, electrical cords and power tools. Like stated earlier, most topics are covered.

Emergency Evacuation: Plan, Process and Procedures
Product code: EEPP-4003.02.000.0072  Runtime: 12  Spanish: yes
Setting up an emergency evacuation plan is an important job, as is putting the plan into practice. This video looks to instruct all who watch it as to the importance of these seldom use, but valuable tasks. Also covered is setting an assembly area, what to do during and emergency, and types of situations that warrant emergency preparedness.

Emergency First Aid
Product code: EMFA-4003.02.000.0138  Runtime: 19  Spanish: no
Wouldn’t you like each of your employees to have some base knowledge to be able to help those going through a medical emergency? In this short, 19 minute first aid training video many of the most common emergency situations are covered, coupled with how to properly attend to the injured person in each situation. Cardio Pulmonary Resuscitation, the Heimlich maneuver, properly placing and maintaining a tourniquet, and much more are taught thoroughly throughout this first aid online program.

Emergency Preparedness: A Supervisor’s Role
Product code: EMPS-4001.01.001.0002  Runtime: 32  Spanish: no
Using the methods in this DVD, supervisors will learn how to prepare their employees for sudden disasters including earthquakes, flooding, hurricanes, poor weather conditions, chemical spills, vapor exposure, workplace violence, arson and employee sabotage -- whether these occur under natural, accidental, or intentional circumstances. The presentation provides supervisors with the knowledge and tools necessary to ensure that each employee is accounted for and knows how to evacuate safely. This training will educate on taking the safe actions necessary to put a business back in operation as quickly as possible after any emergency.
Emergency Preparedness: An Employee`s Responsibility
Product code: EMPE-4001.01.001.0001   Runtime: 22   Spanish: no

This presentation teaches employees how to take responsibility for their own safety in emergency situations WHERE weather conditions, natural disasters, employee violence, arson, robberies and even terrorism occur at work. The program shows that these harsh realities do happen and stresses the importance of individual responsibility, communication, awareness and taking the proper actions for each given situation. These guidelines will enhance confidence in employees and prepare them for nearly any emergency situation they may face in the workplace.

Emergency Preparedness: Knowing What To Do
Product code: EPKW-4004.01.008.0020   Runtime: 13   Spanish: no

In an emergency situation, cooler heads need to prevail. That is why knowing what to do is the most important factor to handling any disaster. This video instructs the viewer on how to handle a number of emergency situations including: fire, severe weather, earthquakes, floods, and even a medical emergency on site. Fast paced and very informative this film could teach any employee, anywhere.

Emergency Preparedness: The Chemical and Biological Threat
Product code: EPCB-4003.02.033.0034   Runtime: 18   Spanish: no

The fact that we are at war with terror does not mean that we have no chance of being attacked in America. This video educates the viewer on the different kinds of biological and chemical attacks that could be used against us, as well as proper protection and awareness for each. A very interesting and informative video, this 20 min. film uses real photos and facts to get it's point across.

Employee Theft and Robbery in The Hospitality Industry
Product code: ETRH-4003.02.000.0122   Runtime: 12   Spanish: no

While working at a restaurant, or in the hospitality industry, being robbed is one of the last things on your mind, which is why you should be properly trained on such a situation so that panic does not set in. This film instructs the viewer on how to handle such a situation, as well as preventative measures and security procedures. This interesting, informative film ends with a section dealing with employee theft that erases some of the myths regarding why employees steal.

Ergonomic Task Analysis and Safety
Product code: ETAS-4004.01.000.0025   Runtime: 27   Spanish: no

Setting up a workstation that is not up to ergonomic standards is not an easy task and can take both time and creativity to set up correctly. This film uses a sample environment to show situations WHERE ergonomic re-structuring could be used, and also shows how the problems are solved. Topics such as ergonomic lifting, typing posture, stretching techniques, repetitive strain injuries, and computer workstation ergonomics are covered.

Ergonomics For The 21st Century
Product code: EFTC-4003.02.033.0041   Runtime: 14   Spanish: no

When we usually come into a place of work we try and fit ourselves to our surroundings, even though this is backwards. Employees need to tailor their workstations to themselves as much as possible to help cut down on developing a repetitive strain injury. This program covers workplace ergonomics in many environments, as well as teaches about carpal tunnel syndrome symptoms and desk stretches that can be done to help prevent it. This would be a great video for any employee to watch as its motto is `fit the workstation to the person?.
Ergonomics: Doing Your Part

Product code: EDYP-4003.02.000.0069  Runtime: 15  Spanish: no

Ergonomics safety is everyone’s responsibility, not just management. Use this ergonomics video to show your employees how they can participate in keeping the number of ergonomic related accidents, such as repetitive strain injuries, to a minimum. It encourages desk stretches, shaking, and exercising the arms and wrists to help prevent such situations from occurring and to keep carpal tunnel syndrome symptoms from developing.

Ergonomics: What`s Wrong With This Picture?

Product code: EWWP-4003.01.033.0005  Runtime: 8  Spanish: no

Use this ergonomic safety training video to test if your employees understand the principals governing good ergonomic practices. The video visually presents a workplace ergonomics situation, and then asks the viewer to find out what is wrong with the picture, according to the ergonomic standard. It then shows the problems and proceeds to correct them, so that the viewer can see how and why these situations are addressed. This ergonomics video is great for an office environment, but will work well for workstation ergonomics in any environment.

Every 15 Minutes...

Product code: EFMY-4002.01.001.0012  Runtime: 15  Spanish: no

The gripping story in this DUI video revolves around the fact that every 15 minutes a death occurs from drunk driving. Viewers will have the chance to see the overall effects that alcohol related deaths can cause, and the effect on families and friends of victims. It is an emotionally driven story and gives a clear picture of the real-life consequences of driving while intoxicated. This DUI training video is designed for a dramatic impact upon viewers.

Eye Protection

Product code: EYEP-4003.02.000.0120  Runtime: 11  Spanish: yes

Eye injuries are something that we would all want to avoid, so why do so many eye injuries occur? The answer: Not wearing the proper eye protection. It may be uncomfortable, or in some way irritate your vision, but having that vision at the end of the day should be job number one. This film gives many reasons as to why proper eye protection equipment is not worn, and attempts to make an impact in doing away with the apathy and complacency that many of us feel at work.

Fall Protection: Preparation, Application and Safety

Product code: FPPA-4001.05.010.0016  Runtime: 19  Spanish: yes

85% of on-the-job falls result in lost work time, and even a short fall can cause serious injury or even death. This fall protection program teaches what you need to know about fall protection safety when working from any height. The fall protection training is highlighted further by an overview of fall protection equipment such as harnesses, lanyards, and d-rings.

Fire Extinguishers: Ready To Respond

Product code: FERR-4004.01.008.0018  Runtime: 13  Spanish: yes

Every year, fires in the workplace cause thousands of employee injuries and millions of dollars in damage to personal and company property. This upbeat video to teach your employees how to use the P.A.S.S. procedure and the right extinguisher for each kind of fire. The confidence of gaining the proper knowledge through this video can help the panic and confusion usually common to most fire emergencies.
First Aid Training for School Bus Drivers

Product code: FASB-4007.02.001.0012  Runtime: 26  Spanish: no

This program is a must for any school bus driver. Being prepared for any eventuality is one of the responsibilities of school bus drivers. This program will train bus drivers on the basics of first aid in a range of situations including those involving bleeding and shock, open injuries and wounds, safely moving victims, and recovery positions for both conscious and unconscious victims. Drivers will be shown how to protect themselves as they are helping the injured persons as well as how to create and follow an emergency action plan for their bus and students which includes knowing which authorities to call and what information they will need to give to the authorities.

Flagger Safety and Traffic Control

Product code: FSTC-4001.05.010.0090  Runtime: 12  Spanish: no

Viewers of this presentation will be given an overview of the importance of and requirements for flagger safety during traffic control. Equipment requirements are shown, including the specific clothing and PPE a flagger must wear for the highest safety in each situation. Tips are given on how to handle oneself in traffic including positioning on the road and visibility locations. The various applications of the single flagger and two-flagger situations are discussed. An overview of flagging procedures is given along with proper conduct for a flagger. Information contained in this presentation is based on OSHA regulations for flagger safety.

Flammable Liquid Safety

Product code: FLQD-4003.02.033.0015  Runtime: 9  Spanish: no

Working with flammable liquids is an everyday task for all of us (gasoline), but do we really know the dangers? This film looks to educate the viewer on the hazards of working with flammable liquids and the proper ways to handle and store them. It is a good video for all employees.

Flatbed Truck Safety Training

Product code: FBTS-4004.01.000.0034  Runtime: 17  Spanish: no

Flatbed trucks are unique vehicles because the loads change most every time they are driven. Properly securing loads take precaution and focus. This film aims to point out the safety rules involved with material handling, securing the different sizes of loads, and tarping the loads correctly. The video also points out how to interact safely with the loads, the cab, and the safest way to use much of the equipment involved.

Fleet Shop Safety: Acid Batteries and Jump Starting

Product code: ABJS-4003.02.000.0076  Runtime: 12  Spanish: no

Great training for anyone handling acid batteries. Program explains battery construction, personal safety, battery storage, and charging batteries. It also covers proper jump start procedures as well as many overlooked details such as putting a damp rag over the battery to be charged to reduce hydrogen leakage and explosion possibilities.
Food Service Sanitation and Hygiene Safety

Product code: FSSH-4003.02.000.0097  Runtime: 10  Spanish: yes

Remember that time at the fast food restaurant that you saw that guy wipe his nose with his hand and then immediately grab your food to bring it to you? Help your food service institution hold a higher standard through the use of this training video. Topics covered include: bacteria growth, insect and rodent control, food handling, temperature controls, sanitation training, and of course personal hygiene.

Forklift Operator Safety and Training

Product code: FOST-4003.02.033.0006  Runtime: 17  Spanish: yes

There are 855,000 forklifts in the United States, 11% of which will be involved in an accident. That is almost 95,000 vehicles involved in an accident next year alone, not including forklifts involved in more than one accident. This forklift safety video tries to make sure that your employees don’t become part of that statistic. The topics covered in this forklift training film video include: engineering principles, knowing the load center and capacity of your forklift, understanding stability (both latitudinal and longitudinal), and how to increase your chances of surviving a turnover.

Forklift Safety

Product code: FKLS-4004.01.008.0005  Runtime: 11  Spanish: yes

Over 37,000 accidents happen each year to forklift operators that are familiar with the powered industrial truck that they are using on a daily basis. This simple forklift safety video is designed to provide employees with the equipment specific training needed to comply with OSHA standards.

Forklift Safety: A Professional Operator’s Responsibility

Product code: FPOR-4003.02.000.0155  Runtime: 17  Spanish: no

This presentation is designed for anyone who operates forklifts. The training in this video covers the importance of safe forklift operation and the responsibilities of a professional lift truck operator as well as skills and techniques operators can use to ensure safety for themselves and those around them. This includes an overview of the major components of a forklift and contains animations for effective understanding of the 3 point system, and much more.

Forklift Safety: Real Accidents, Real Stories

Product code: FSRR-4002.02.001.0015  Runtime: 12  Spanish: yes

Throughout this forklift safety video, viewers will be introduced to the OSHA standard 1910.178, which governs powered industrial truck training, including forklift training -- the focus of this presentation. Viewers will hear thought-provoking stories of real forklift accidents and the far-reaching effects such incidents can have. In the midst of these stories, the video will discuss preventing injuries, accidents and property damage during the use of fork lift truck training, why this is necessary -- and most of all, how to stay safe and in compliance with the corresponding OSHA powered industrial truck operator training standard. After hearing the real stories presented, employees will see the impact of how ignoring general forklifts safety and awareness procedures as well as OSHA standards can be fatal. Employees will walk away with a sense of the importance of following the forklift training program.
Forklift Safety: The Experienced Operator

Product code: FSEO-4003.02.000.0128  Runtime: 14  Spanish: no

Powered industrial trucks cause around 100 fatalities annually. Half of those victims are between the ages of 35-54. These two facts prove that complacency, not the vigor of youth, is the culprit in these unfortunate incidents. What is more astounding is that this forklift accident video provides the insight that 1/3 of all forklift injuries occur when the operator is getting on or off the forklift. With solutions provided to combat each statistic, this is hardly a forklift training video that you can afford to pass on.

Forklift Safety: The Triangle of Stability

Product code: FSTS-4002.02.001.0016  Runtime: 10  Spanish: yes

This forklift safety video educates forklift operators on how to safely maneuver their vehicles. It focuses on all aspects of forklift stability, including the stability triangle, working with different surfaces, carrying loads properly, proper braking techniques, preventing property damage, and how to move through any environment safely. General, easy-to-remember tips for safe everyday use of forklifts will also be offered in this lift truck safety training video. After watching this presentation, operators will know what to be aware of when they operate their forklift, and how to avoid dangers in their working environments.

Forklift Safety: What`s Wrong With This Picture?

Product code: FSWP-4003.02.033.0045  Runtime: 9  Spanish: no

In this humorous forklift training video the viewer is presented with scenes featuring a forklift in use and is asked to identify what the forklift operator was doing wrong. It actually can make you laugh, and makes good points to complacent workers. The information included in this forklift safety video is designed to meet OSHA standards for powered industrial truck training.

From Knowing To Doing: The Energized Approach to Successful Training Results

Product code: KEZA-4013.01.000.0013  Runtime: 35  Spanish: no

From Knowing To Doing: The Energized Approach to Successful Training Results

Global Harmonization Training For The Hospitality Industry

Product code: HSSI-4003.02.0182  Runtime: 18  Spanish: yes

Hazard Communication - Right to Know is a program that can have a powerful, positive impact within your overall safety program. In simple, straight-forward language, this video will help your employees understand what is required of them in order to use HAZCOM effectively. With a focus on safe chemical product use in the workplace, employees will learn how to get the information they need so they can do their jobs safely.

Good Housekeeping For A Manufacturing Environment

Product code: GHME-4003.02.033.0073  Runtime: 9  Spanish: yes

An important aspect of safety that is often overlooked is housekeeping. Good housekeeping can help prevent workplace accidents, property damage and injuries. This video emphasizes everyone’s cooperation and effort in safety storage, chemical safety, flammable storage, and workplace safety.
Good Housekeeping On The Jobsite

Product code: GHJS-4004.02.008.0005  Runtime: 10  Spanish: no

In this video, we will follow a messy employee as he learns the importance of good housekeeping -- the hard way. We will see how quickly an everyday mess can create a number of risks. Various specific hazards of poor housekeeping will be outlined and followed by prevention techniques for each. Examples of topics include flammable storage, chemical safety, MSDS labeling, and chemical safety. Viewers will walk away with a sense of how important good housekeeping is for everyone in the workplace and how a little prevention goes a long way.

Good Housekeeping: Keeping Your Workplace Safe

Product code: GHWS-4002.02.001.0012  Runtime: 10  Spanish: yes

This good housekeeping compliance safety training video teaches the importance of keeping a clean, organized, uncluttered workplace and how it prevent injuries, illness, allergies, and even fires through good housekeeping practices. The health safety video contains a number of methods to achieve a consistently clean and safe work environment, including the well-known 5 S’s method. Additional topics include proper footwear, chemical safety ventilation, handling electrical hazards, safety in the presence of combustible dust, and proper hazardous material storage. The video trains on compliance with OSHA hazard communication standard, the CFR 1910.22 regulation.

Hand Injury Prevention

Product code: HAND-4003.02.000.0127  Runtime: 13  Spanish: yes

Hand injuries constitute 75% of industrial injuries that cause partial disability and 1/3 of workplace injuries. Every year there are 16 million hand injuries, and in fact every 32 sec. a hand injury occurs. Use this hand safety video to stamp out complacency and cut down on the rate of hand injuries at your place of work. Keep hand injury prevention at the forefront with the information on this hand video that contains insight to PPE training, ergonomics safety and general hand injury safety awareness.

Hazard Communication Safety

Product code: HZCS-4003.02.000.0169  Runtime: 12  Spanish: yes

Chemicals in the workplace can be extremely dangerous if they are not used, handled, stored and disposed of properly. Employees are encouraged to read and understand labels, use Material Safety Data Sheets, and ask questions to make sure that they protect themselves and their environments from the hazards posed by chemicals in the workplace.

Hazard Communication: Global Harmonization Standard Compliance

Product code: HCGH-4001.05.000.0020  Runtime: 16  Spanish: yes

Retrain staff on the new Global Harmonization standard. This video covers the important changes of the Hazard Communication standard covering; Material Safety Data Sheets (MSDS) being changed to Safety Data Sheets (SDS), hazard classification systems, labels and the ANSI standard format. It also covers how the hazard classifications have been changed to the particular definitions of hazards present in the chemical, and how they are displayed with a new labeling system. New labels include a particular pictogram per the hazard present, and a signal word signifying the severity to the particular hazard. This program is easy to understand and very informative making it a good choice in maintaining OSHA compliance.
Hazard Communication: It’s Your Right to Know

When working in the presence of hazardous substances, employees have the right to know what hazardous materials they are around and what their particular hazards are. This is usually accomplished through hazard communication training and MSDS training. A range of relevant hazard communication information is covered in this OSHA online training presentation including what your “right to know” is as an employee, an overview of the different categories of hazardous substances, all about the label hazardous materials need to display, proper hazardous chemical storage procedures, how to remain in compliance with OSHA hazard communication standard 29 CFR 1910.1200 and an excellent introduction to OSHA safety standards in approved labeling requirements, including: MSDS, NFPA and HMIS labeling formats.

Hazard Communication: KHAZ Talk Radio

This unique online OSHA safety training hazcom program introduces the essentials of hazard communication standards in an innovative and engaging way. This hazard communication program covers: label safety, material safety data sheets (MSDS training), chemical safety training, personal protective equipment training, good housekeeping, chemical storage and emergency procedures. Utilize this OSHA online training video to accentuate your hazard communication plan within your employee safety training.

Hazard Communication: Real Accidents, Real Stories

In this presentation, three compelling stories will be told by the victims, coworkers and families affected by dangerous hazardous substance incidents. Viewers will be introduced to the OSHA hazard communication standard 29 CFR 1910.1200. Amidst these three realistic stories, we will learn the proper, OSHA-compliant handling, labeling and storage practices for hazardous substances. In this presentation, we will discuss what you need to know about proper hazard communication, why you need to know it -- and most of all how to find the information that you have the right to know about, or MSDS training, while working around hazardous materials.

Hazard Communication: Satisfying The OSHA Standard

This compliance safety m.s.d.s. online training video is a multi-environmental showcase of safety training satisfying the OSHA hazard communication standard. With such great information, and so many different work environments shown, the video could apply to any facility that has MSDS chemicals on site. In fact, the last half of the video is spent on MSDS training for labels so that employees know what they are looking at when they are reading through the material safety data sheets.

Hazard Communication: Understanding The OSHA Standard

This hazard communication film strives to educate the viewer on the “Right to Know” OSHA standard. The film explains the labeling system on hazardous chemicals and breaks down material safety data sheets for employees interacting with such chemicals. The film is applicable to many environments and even touches on the DOT requirements for hazcom as well as an excellent section on MSDS training.
Hazard Communication: Working Safely With Chemicals

Product code: HCWC-4004.01.000.0028  Runtime: 13  Spanish: yes

This video opens with a humorous scene that mimics the typical attitude that workers have towards chemicals they come across on the job. This scene is presented to show the importance of the OSHA hazard communication standard. Also covered is MSDS labels, PPE training and proper hazardous chemical storage. The main focus of the video is for a worker to consider these four questions when dealing with MSDS chemicals: What am I working with? Can it hurt me? How do I protect myself? What if something goes wrong?

Hazardous Materials: Spills and Cleanup

Product code: HZMT-4003.02.033.0051  Runtime: 14  Spanish: yes

Hazardous materials are a part of many work situations. They are found in many different types of facilities and on many job sites... from manufacturing and construction to retail and office environments. This brief, fast-paced video reviews spill hazards like explosions and ionizing radiation; explains the do's and don'ts of spill cleanup procedures; and discusses who is involved in spill cleanup and who to notify in the event of a spill.

HAZWOPER : Personal Protective Equipment

Product code: HZPP-4003.02.000.0083  Runtime: 9  Spanish: yes

When dealing with hazardous chemicals, personal protection, through proper PPE, should be your number one concern. This HAZWOPER training video covers all of the HAZWOPER standard personal protective equipment that could be needed in hazardous chemical situations. The last portion of the HAZWOPER online training program covers heat stress and other heat related illnesses that can occur when using PPE.

HAZWOPER Orientation

Product code: HZOR-4003.02.000.0079  Runtime: 16  Spanish: yes

This HAZWOPER training video orients anyone who works with, or is around, hazardous substances to the HAZWOPER standards and requirements. Since even gasoline is considered a hazardous substance, this film can be beneficial to all who watch it.

HAZWOPER: Identification of Hazardous Materials

Product code: HZHM-4003.02.000.0080  Runtime: 13  Spanish: yes

This is a thorough HAZWOPER online training video that covers the identification of hazardous materials that require HAZWOPER training. It also includes definitions of TLV, TLV-TWA, TLV-STEL, and TLV-C, as well as the many different methods used to expose the employees to these toxic substances. This HAZWOPER training online program can also be used as a standard HAZCOM training video.

HAZWOPER: On Site Operations and Safety Considerations

Product code: HZSO-4003.02.000.0081  Runtime: 11  Spanish: yes

When following through with HAZWOPER operations special considerations need to be taken. This HAZWOPER training online video covers the various hazards encountered, as well as focusing strongly on confined space operations and finding unsafe working conditions and common physical hazards.

Hearing Conservation: Listening To Your Inner Voice

In this entertaining training video, we follow Jim as he goes through his day with the two voices of reason in his head popping up to tell him the facts about hearing conservation. As viewers follow Jim and his two friends through the work day, they are offered all the basics of hearing conservation, how to take good care of their hearing, how noise induced hearing loss occurs, how sound can cause damage even though it’s intangible, and how to prevent this damage for long term hearing conservation by donning and applying personal protective equipment properly for optimal protection.

Hearing Conservation: Testing, Training and Protection

This hearing conservation video explains how the ear accepts sound and how sound at too high of a level can cause permanent hearing loss. This hearing conservation program displays many different environments and the hearing protection safety hazards inherent to each, as well as the hearing protection equipment (PPE) that would be most effective. It even has a section on everyday sounds that we all encounter and how to avoid any negative impact from them.

Heat Stress: Real Accidents, Real Stories

Viewers will learn while listening to a set of attention-grabbing personal accounts of incidents when safety was neglected in high temperature situations, both indoors and outdoors. Includes commentary on what workers need to know about heat stress symptoms and prevention. Viewers will gain an understanding of the many hazards of working in the heat, including dehydration, heat cramps, heat stroke vs heat exhaustion and teaches how to potentially minimize these hazards through proper heat stress training.

Heat Stress: Staying Healthy, Working Safely

Over 20% of heat stroke victims die regardless of their health or age. The information in this video provides general safety instruction to anyone who works in a hot environment, whether that environment is an indoor or outdoor area. This presentation covers the various types of heat stress, what their symptoms are, how the body operates in a hot environment, what workers can do to prevent heat stress from occurring and what measures to take if they recognize heat stress symptoms in themselves or a coworker.

Hexavalent Chromium Safety

Hexavalent Chromium is classified as an occupational carcinogen and with contact can irreversibly damage the nose and eyes. It has played a role in lung cancer development and skin reactions to it are usually quite severe. Periodic monitoring is essential to make sure that you react to the ?action level? (2.5 micrograms) so that the PEL (5 micrograms) is not reached. Also covered in the video is HAZCOM, respiratory protection as well as other PPE, maintaining regulated areas, and housekeeping (including proper disposal). Record-keeping and proper medical surveillance is also highlighted.

High Speed Collisions: The Effects On The Brain

This powerful driving safety video follows the story of Annette, an intelligent lab technician, and the car accident that changed her life. This drivers training video covers the effects of all types of auto collisions on the human brain; and how even a little damage to certain brain tissues can have lasting negative effects. This is a great and impactful film for any driver.
Highway Work Zone Safety
Product code: HWWS-4004.02.008.0016  Runtime: 11  Spanish: no
Includes detailed discussion of the many potential hazards of highway work zones. The information included in this presentation will give viewers the necessary tips and information to complete their jobs safely regardless of the many hazards they face as they go through an average day on the job.

Hot Mix Hazards and Safety
Product code: HMHS-4004.02.008.0019  Runtime: 11  Spanish: no
Includes detailed discussion of the many potential hazards of highway work zones. The information included in this presentation will give viewers the necessary tips and information to complete their jobs safely regardless of the many hazards they face as they go through an average day on the job.

Hotel Fire Prevention and Safety
Product code: HFPS-4003.02.000.0108  Runtime: 18  Spanish: yes
Fire prevention training is an essential tool that should be at the forefront of everyone’s mind. This hotel fire safety program covers common causes of workplace fires, the importance of good housekeeping and fire prevention, evacuation procedures, and proper use of a fire extinguisher. Great for all environments, but essential for the hospitality industry.

Hotel Safety and Security
Product code: HSST-4001.05.033.0001  Runtime: 10  Spanish: no
The perfect video to explain how staff can play an important part in creating a safe and secure environment for guests. It is a very complete film and goes into great detail, for example: The film says not to read the room number of the guest out-loud when giving them the key at the front desk.

Hotel Safety and Security Training: Management Awareness
Product code: HSSM-4003.02.000.0154  Runtime: 20  Spanish: no
Even though violence is not the first thing we associate with the hospitality industry, it is important for every hospitality employee to be prepared for any situation. In this presentation, hospitality workers will be trained on how to handle robberies, terrorist attacks, hurricanes, extreme weather conditions, and more. Training will be provided on how to respond effectively and appropriately to any threat that employees may face at their location with as little disruption to guests as possible. Also includes specific instruction on Homeland Security practices relevant to those working in the hospitality industry.

Hours of Services Training For CDL Drivers
Product code: HRST-4003.02.000.0150  Runtime: 9  Spanish: no
In this short video, CDL drivers will be trained for an understanding of the hours of service laws for CDL drivers. Each part of the regulation will be covered one-by-one throughout the presentation. Things like rest periods, holiday breaks, and lunch breaks or off duty time will be discussed along with the basics of understanding the hours of service regulations in general.
Housekeeping Safety: Making Beds Safely
Product code: HSMB-4003.02.0185  Runtime: 6  Spanish: no
It may not seem obvious, but making a bed can pose many possibilities for injury. Bending improperly, lifting more weight and bulk than is safe, tripping over bedding on the floor: these are examples of common housekeeping mistakes that are discussed in the video. With a heightened awareness of proper techniques, your staff will be encouraged to perform this task safely.

How To Control Bullying on a School Bus
Product code: CBSB-4007.02.001.0004  Runtime: 21  Spanish: no
Statistics show that most school bus accidents occur when students cross either in the front or the rear of the school bus. In this four-part presentation, bus drivers will learn the safest procedures when it is necessary to cross students in the front or rear of their school bus. Includes education on five point mirror checks, using lighting systems, and training on the danger zone.

How To Control Extreme Behavior on the School Bus
Product code: EBSB-4007.02.001.0007  Runtime: 21  Spanish: no
As with society in general, student behavior on buses has become more extreme than it was in the past. Thus, the importance of this video for bus drivers. This video will train each driver on how to handle extreme behavior in students who ride the bus. It offers constructive options and gives drivers guidelines to know when they can handle a situation on their own, and when they need to seek outside assistance. Another essential program for any bus driver who transports children and teenagers.

How To Respond To A School Bus Hijacking
Product code: HJSB-4007.02.001.0014  Runtime: 22  Spanish: no
In current years, it has become more important for school bus drivers to be prepared for anything when it comes to the students riding their bus. In this presentation, drivers will be prepared for dealing with possible hijacking incidents on their bus. Early warning signs will be discussed, as will the general steps to follow in the event that a student has a weapon. It will show "real life" examples of how such a situation could be handled effectively, showing key decisions the driver can make to ensure the safety of everyone on the bus.

How to Safely Evacuate a School Bus
Product code: SESB-4007.02.001.0034  Runtime: 21  Spanish: no
A video that uses cognitive and dramatic techniques to demonstrate best evacuation practices. A re-enacted bus accident shows the students responsibilities when a driver is incapacitated. Drills for all door types are covered: rear, side and split.
How to Survive A Tire Blowout On A School Bus

Product code: TBSB-4007.02.001.0029  Runtime: 11  Spanish: no

Tire blowouts are a possible reality for all school bus drivers. As a bus driver, one must be prepared for any eventuality while operating their bus and transporting students. This video shows bus drivers how to be aware of the condition of their tires and what they need to know about their tires in order to lessen their chances of a blowout and to handle the bus if one occurs while they are driving.

Hydrogen Sulfide Safety Training

Product code: HYST-4003.02.033.0021  Runtime: 18  Spanish: no

Hydrogen Sulfide, or H2S, can be found in many different environments, from petroleum sites, to the city streets. Use this informative video to figure out what hydrogen sulfide is, who is at the greatest risk of illness by inhalation, WHERE it can be found, why it can be deadly, and how to protect yourself when exposed to higher levels of the gas. Also covered is respirator safety, contingency plans for overexposure at a site, and SO2, or sulfur dioxide.

Hypothermia Prevention

Product code: HYPO-4003.02.033.0052  Runtime: 13  Spanish: no

Surprisingly, hypothermia can develop in almost any environment. Hypothermia is a fall in body temp to below 95 degrees and is even possible if too much time is spent in 80 degree water. This video looks to dispel the myths and inform the viewer about how hypothermia and frostbite can develop and how to care for an afflicted individual through some excellent winter safety tips.

Identification and Risk Assessment of Legioella

Product code: IRAL-4003.02.0197  Runtime: 7  Spanish: no

Ignorance, Harassment or Etiquette: A Beautiful Office

Product code: IHEC-4001.01.001.0004  Runtime: 21  Spanish: no

Beware! This over the top comedy is designed to reach gen-x’ers on sensitive topics.

In The Blink of an Eye

Product code: INBE-4002.01.001.0009  Runtime: 5  Spanish: no

Becoming complacent is a well-known reason why incidents occur in the workplace. This remarkable safety training video shows just how quickly incidents can happen, and how easily it is to avoid dangers and risks in the workplace by staying aware, avoiding shortcuts and preventing distractions.
Injury Prevention In The Restaurant

Introduction To Special Education Bus Driving

Product code: SPSB-4007.02.001.0027  Runtime: 19  Spanish: no

Job Safety Analysis: Step by Step

Product code: JSSS-4004.02.008.0002  Runtime: 14  Spanish: no

Bus drivers relate to this video that emphasizes behavior modification techniques that can be easily implemented. Highlights include making students accountable and communicating with parents, plus: how to modify students' behavior; use of positive reinforcement; effective verbal intervention strategies.

School bus driver’s face the daily challenge of managing behavior. Intervention techniques for special needs students are reviewed in the realistic video. It covers methods for positive reinforcement, how to convey and ensure understanding of rules to passengers as well as effective verbal intervention strategies.

More and more special education students are riding school buses than ever. This presentation will show bus drivers how to handle special education students on their buses including how to drive defensively, how to load and unload students, and proper techniques for wheelchair tie down. In this production, bus drivers will be shown the basics of how to handle and transport special education students safely while keeping the regular students on the bus safe as well.

A Job Safety Analysis, or JSA, is essential for any job. This JSA video uses a real life incident to emphasize the importance of a proper jab safety analysis. The host goes over what went wrong in that particular accident and then proceeds to teach how to do proper JSA’s for any job. This safety training video works great for a construction environment, but is applicable anywhere.

Ladders are one of the most commonly used pieces of equipment. Regardless of whether you work in an office or on a construction site, a ladder is most likely on the premises. This video guides the viewer through the proper selection and use of many different types of ladders, including: step ladders, 'A' ladders, extension ladders, straight ladders and platform ladders.

This landscaping training video covers commonly used equipment and safe landscaping practices. The landscaping online program covers the general safety rules to follow when operating mowers, cutters, knives, trimmers, and weed eaters. Also it covers safety when dealing with chemicals and hazardous materials associated with this industry.

Even despite recent regulations regarding lead safety, lead is present in our lives more than the average person realizes. Use this video to teach the proper procedures on maintaining a safe environment when dealing with lead, and ways to minimize it's impact on each employee.

Maintaining the `power position` is the main theme of this lifting and stretching safety training program. There are three natural curves in every person`s spine, that when kept in line, are the biggest help to reducing back strain. This back safety video provides three rules to utilize when lifting safely with maximum safety: keep the object close and the curves in your spine, build a bridge between you and the object, and always go feet first. Also covered is warm up and preventative exercises to help your body be ready for strenuous movement.

Pendant, or hand controlled, overhead cranes or hoists are one of the most useful aids for material handling in the workplace today. This is an excellent crane safety training program for anyone using overhead cranes/jib hoists. Every person who works near or with cranes should understand the basic safety rules. Designed for anyone operating hoists or cranes, this OSHA crane safety video explains sling angles, safety techniques, crane rigging safety and inspection procedures. Anyone operating this equipment must be trained, so this crane safety video meets OSHA training requirements.
Loading Zones: A Split Second Around Your School Bus

Product code: LZSB-4007.02.001.0018  Runtime: 11  Spanish: no

Many dangers can occur in and round school bus loading zones. This presentation shows bus drivers the multitude of hazards that surround them at the loading zone and how to effectively and safely operate when in the loading zone so as to prevent any incidents from occurring. Drivers will learn to identify students and bystanders that are in danger as well as basic safety practices that help them to maintain awareness at all times.

Loading, Hauling and Unloading Construction Equipment Safety

Product code: LHCE-4004.02.000.0020  Runtime: 11  Spanish: no

Large construction equipment was created to make difficult jobs easier, but getting them to the jobsite is often the most difficult part of the job. This CDL driver driving safety video teaches the viewer proper hauling, loading, unloading, and securing of these large construction vehicles.

Lockout / Tagout Safety

Product code: LOTO-4004.01.008.0011  Runtime: 13  Spanish: yes

This lock out tag out video starts out with an example of how easily a problem can develop when proper lockout tagout procedures are not followed. This lockout tagout program covers the step by step process for acceptable locking and tagging procedures and it has plenty of examples and beneficial suggestions to make the process easier (such as different colored locks for different people or groups).

Lockout / Tagout Safety for Affected Employees

Product code: LTAF-4004.01.008.0017  Runtime: 7  Spanish: yes

This lockout tagout safety video is geared towards employees affected by lockout tagout procedures rather than employees utilizing the lockout tagout procedure for maintenance. It teaches the employees the purpose behind locking and tagging out and explains the various types of locks and tags and their purposes.

Lockout / Tagout Safety for Authorized Employees

Product code: LTAZ-4004.01.008.0016  Runtime: 16  Spanish: yes

Proper lockout tagout procedures are essential to maintaining a safe work environment. This lockout tagout training video is designed for anyone that would ever work on or around heavy machinery. It covers the different types of machinery to be locked out, and goes over proper tagging procedures. The employees that are authorized to cut off an energy source will learn much from this film or at the very least will witness a comprehensive loto procedures refresher in this video.

Lockout / Tagout Safety: Process, Policy and Procedures

Product code: LTPP-4003.02.033.0038  Runtime: 10  Spanish: no

This short video covers lockout tagout procedures at a very in-depth level. After explaining the ins and outs of a typical lockout tagout program, it covers the servicing of equipment while running and also covers machine guards available to protect maintenance workers. This lockout tagout training video also gives good policy measures on such situations as clearing jams in running equipment.
Lockout / Tagout: Taking Control

Product code: LTTC-4004.02.008.0008  Runtime: 18  Spanish: no

This is a phenomenal lockout tagout training video detailing the ins and outs of lockout tagout procedures in a construction environment. It provides a step by step process for shutting off power and the releasing energy from any source on the jobsite. Despite the construction atmosphere, this film would be beneficial to anyone who works around hazardous energy and needs to be warned of lockout tagout safety.

Machine Guards: Safety and Responsibility

Product code: MGSR-4003.02.033.0014  Runtime: 8  Spanish: yes

The original concept designs for most machines did not include guarding, in fact every guard that you see has been developed for the task of protecting workers. This video touches on machine guarding dos and don'ts including such topics as lockout/tagout. It is a great, quick film that puts the proper emphasis on respecting machine guards, no matter the situation.

Machines, Operators and Guards: Real Accidents, Real Stories

Product code: MOGR-4002.02.001.0004  Runtime: 13  Spanish: yes

We will follow the personal stories of three workers who have been affected or injured at work by breaches in machine guard safety procedures. Through each worker’s personal stories, viewers will see the possible far-reaching impact of overlooking safety procedure for even a moment. Emphasis is placed on the importance of following safe general machine guarding procedures, proper guard inspection before use, and practicing awareness while using machines. Compliant with OSHA standard 1910.212.

Manager On Duty Training

Product code: MODT-4003.02.0194  Runtime: 14  Spanish: yes

Managing The Anger To Prevent The Violence

Product code: MAPV-4002.01.001.0005  Runtime: 16  Spanish: no

Unfortunately, no workplace is immune from Violence. But, knowing the truth about workplace violence is the first step in handling it safely and in maintaining a safe and productive workplace. Viewers will learn how to identify the common warning signs of a situation on the brink of danger. Focus is placed on prevention of negative incidents through positive actions, awareness and effective communication.

Mirror Usage and Blind Spots in a School Bus

Product code: MBSB-4007.02.001.0019  Runtime: 26  Spanish: no

Mirrors are one of the most utilized safety tools in the daily work of a school bus driver. Proper use of mirrors can prevent injuries and accidents of students and pedestrians. This video will serve to educate school bus drivers on how to properly adjust their seat and mirrors, how to handle blind spots, and finally how to do an effective five-point mirror check.
Mobile Crane Capacities
Product code: MCNC-4004.02.008.0014  Runtime: 19  Spanish: no
Documented crane capacities are for ideal conditions that hardly ever exist. Use this crane safety training program to understand why this is and how and when to adjust the load capacities. This film primarily focuses on mobile crane safety.

Mobile Crane Setup
Product code: MCNS-4004.02.008.0013  Runtime: 17  Spanish: no
There are many factors that go into safe mobile crane setup. Use this mobile crane safety video to familiarize yourself with the various parameters that need to be met, such as: a level surface, proper blocking or cribbing, assembling and disassembling of boom extensions, crane rigging safety, and much more. This video applies to either crawler or outrigger cranes.

Mosquitoes: What You Need To Know About The West Nile Virus
Product code: MWNV-4003.02.033.0049  Runtime: 8  Spanish: no
It is not well known that something as minor as a mosquito bite can have adverse effects on your health. This film teaches how mosquitoes can infect a person with diseases such as the West Nile Virus, how the mosquitoes transfer the virus, and steps to prevention, including: getting rid of or sanitizing standing water.

Mountain Driving for School Bus Drivers
Product code: MDSB-4007.02.001.0020  Runtime: 23  Spanish: no
School bus drivers who drive in the mountains face a host of unique challenges. This video will show bus drivers a number of techniques they can use when driving their school buses in the mountains. It is divided in to five separate sections which will each describe one aspect of mountain school bus driving including laws that are specific to mountain driving, climbing and descending, and proper braking techniques, just to name a few.

New Employee Orientation
Product code: NWEO-4003.02.033.0005  Runtime: 14  Spanish: yes
It would be difficult to pack more information into a 14 minute film. This film clearly explains, unsafe acts, drug and alcohol policies, machine guards, lockout/tagout, electrical safety, PPE, fire prevention, ladder safety, hazcom and msds, good housekeeping policies, slip trip and fall prevention, lifting safety, and ends with a quick talk on safety awareness. You would be hard pressed to find a new employee orientation video with more information.

New Employee Safety and Orientation Training
Product code: NSEO-4002.01.001.0004  Runtime: 13  Spanish: yes
Designed for the purpose of helping new employees to acclimate to workplace safety and OSHA guidelines, this DVD is packed with OSHA-friendly terms and safety procedures for new employees. It includes information on the use of personal protective equipment (PPE), hazard communication (Hazcom), the need and right to know of all possible hazardous substances on site (MSDS), good housekeeping, proper labeling and handling of hazardous substances in the workplace, and bloodborne pathogens exposure training. The presentation starts employees on the road to achieving the utmost safety and OSHA compliance in their new workplace.
New Rules: OSHA Log 300
Product code: NROL-4003.02.033.0009  Runtime: 12  Spanish: no
As OSHA is the government agency looking out for the workplace safety training of employees and passing out fines to companies, it is important to keep up with their federally mandated rules. The new OSHA 300 log is a change to record keeping procedures and is detailed in this short OSHA DVD.

Night Driving for School Bus Drivers
Product code: NDSB-4007.02.001.0021  Runtime: 21  Spanish: no
Driving during the night is simply more dangerous than driving during the day. For this reason, bus drivers must have a special understanding of night driving skills. In this presentation, school bus drivers will be shown basic night driving skills that pertain to driving a school bus vehicle. By applying these skills, school bus drivers may be able to lessen the chances of accidents while driving at night.

Norovirus: Awareness and Prevention
Product code: NVAP-4003.02.000.0091  Runtime: 17  Spanish: no
Noroviruses have no known cure, so prevention against outbreak is vital. This video examines how Noroviruses are transmitted and contracted, how to prevent transmission and how to contain outbreaks of the infection. This video is a must see for all employees working in the hospitality/food-service industry.

Office Ergonomic Principals
Product code: OFEP-4004.01.000.0021  Runtime: 14  Spanish: no
The slogan to this ergonomics video is `making the job fit the person, rather than the person fit the job.` This recent ergonomics video on office ergonomics covers just about every common office ergonomics situation with proposed tips and techniques to add less pressure and stress to your body throughout the work day. This ergonomics video will help lower repetitive strain injuries, increase carpal tunnel exercises, promote computer workstation ergonomics and help in the creation of an ergonomic standard ergonomics checklist of each person?s job to solidify company workstation ergonomics.

Office Safety Basics
Product code: OFSB-4003.02.033.0042  Runtime: 8  Spanish: no
This short 8 minute film touches on many office safety subjects, including some lesser known hazards. It covers many situations that could lead to a slip or a trip, such as an open drawer or a spill. It also touches on lifting and ergonomic safety, as well as knowing the emergency exits in case of a fire.

Order Picker Safety
Product code: ORPS-4004.01.008.0007  Runtime: 9  Spanish: yes
Order pickers are one of the few machines that allow you to move at great heights, which raises the level of familiarity and training needed to safely operate the machine. This order picker safety video teaches operators how to safely utilize order pickers and use fall protection through live action simulations.
**OSHA’s Inspection and Citation Process**

**Product code:** OICP-4004.02.008.0004  **Runtime:** 14  **Spanish:** no

If you fall under OSHA, then use this film to train your staff. With such valuable information as the fact that you can reject any OSHA inspection and request that they instead get a search warrant (giving you time to make adjustments in the case of a surprise inspection), not volunteering information during the inspection, not admitting verbally during the inspection that violations occurred, and the fact that while OSHA inspectors can legally interview any workers on site, they don’t have to answer any questions, this film is valuable to all managers and supervisors. While it is filmed at a construction location, the same rules and principals apply, no matter the environment that you work in.

**Overhead Crane Safety**

**Product code:** OHCS-4004.01.008.0009  **Runtime:** 20  **Spanish:** no

If you work with or around an overhead crane, then this overhead crane safety video is a must see! Focusing on over three different types of overhead cranes, this crane safety video covers every aspect of crane safety to insure minimal accidents. A wide assortment of connectors (slings, chains, ibolts, lifting beams, etc.) are covered, as well as talk about sling angles and a pre-use inspection.

**Pandemic Flu: Understanding The Causes, Effects and Health Hazards**

**Product code:** PFLU-4003.02.000.0125  **Runtime:** 9  **Spanish:** no

Prepare yourself for a potential influenza pandemic. This film covers sanitation procedures, inoculation potentials, and information about the illness. A good short film to prepare anyone for a potential disaster.

**Personal Hygiene In The Restaurant**

**Product code:** PHYR-4003.02.0196  **Runtime:** 9  **Spanish:** no

**Personal Hygiene In The Workplace**

**Product code:** PHGW-4003.02.000.0161  **Runtime:** 8  **Spanish:** no

**Personal Protective Equipment**

**Product code:** PPET-4004.01.008.0001  **Runtime:** 8  **Spanish:** yes

This is an awesome PPE video! It contains a clear concise overview of various types of PPE, situations that warrant PPE and how to properly use PPE. Because 70% of workers with hand injuries were not wearing gloves, it is obvious how important PPE safety training, and this PPE safety video, is. Personal protective equipment training can help save lives, limbs and senses, so don’t miss this great opportunity to solidify the proper PPE training with this OSHA personal protective equipment video.
Personal Protective Equipment: Awareness and Attitude

Outlines importance of Personal Protective Equipment (PPE) in the workplace for various applications. The importance and reasoning behind the everyday use of PPE is discussed as a way to maintain general health and safety for everyone in the workplace. Ways to wear PPE comfortable are covered as well as using the proper PPE for each hazard. Compliance with OSHA PPE requirement is discussed and outlined.

Personal Protective Equipment: Real Accidents, Real Stories

In this latest installment of Wumbus’ Real Accidents, Real Stories line of safety training films we follow three workers who through their decisions decided to ignore PPE safety guidelines and ended up paying the price. Personal Protective Equipment topics covered include: Hearing protection/conservation, Head Protection (Helmets), and Eye protection (Safety Goggles/Glasses). This is the newest and most stirring video in the series, as each the accidents that are detailed within can happen to anyone.

Personal Protective Equipment: Your Last Line of Defense!

Get great advice on PPE from the employees themselves in this essential PPE training video. Hear different workers in different environments talk about the importance of PPE, typical (bogus) excuses for not wearing it, and how no matter the circumstances they won’t stand for a workplace with unsafe employees. Also heavily covered is proper donning and fitting of Personal Protective Equipment from your head to your toes.

Pesticide Safety

An incredibly simple and detailed pesticide safety video. This film consists of two sections: a pesticide handler section, and a section for those who work around pesticides. Information includes: restricted entry Intervals, PPE, chemical labeling, herbicide warnings, insecticide rules and more are covered in this in-depth program.

Pile Driving Safety

Pile driving operation, while essential, is a job that has more potential hazards than most. This film outlines the most common hazards and provides information on protective measures for proper pile driver operations.

Pool Safety and Security

Swimming pools are fun and an added bonus to patrons who decide to stay at your establishment, but paying for a room doesn’t give them the right to act any way they want around the pool. This film goes over basic rules surrounding pool safety, as well as advice on how to make sure that guests obey the rules, even intoxicated ones.

</table>
Preventing Slips, Trips and Falls

Product code: PSTF-4003.02.033.0013  Runtime: 11  Spanish: yes

A fantastic film that shows how to prevent slips trips and falls in a number of different settings. From grease build-up on entryway mats, to getting in or out of high trucks, this safety training video is for anyone.

Preventing Slips, Trips and Falls In The Transportation Industry

Product code: PSTT-4003.02.033.0024  Runtime: 7  Spanish: no

With all the worry about keeping schedules and driving safely, slip prevention is commonly not thought about or completely ignored. This film goes over slips trips and falls prevention for anyone that uses a vehicle as part of their everyday job.

Proper Identification of Chemical Dependency

Product code: PICD-4003.02.000.0089  Runtime: 21  Spanish: no

Chemical dependency can wreak havoc on a workplace. This EAP online video gives things to look for and ways to address someone who is chemically dependent. It is an employee assistance training video directed at supervisors. Help establish your drug free workplace training by making sure that management views and understands this EAP video.

Proper Lifting, Carrying and Manual Handling of Materials In The Construction Industry

Product code: PMHC-4003.02.000.0119  Runtime: 10  Spanish: no

This quick 10 minute safe lifting video covers all aspects of safe material handling on a jobsite. Whether lifting by hand, or with a piece of machinery designed to lift heavier objects, this film covers them all. It also covers proper safe storage of different types of materials. This back safety video is a great safe lifting video for anyone working in a construction atmosphere.

Protect Yourself Against Bloodborne Pathogens

Product code: PYBP-4004.01.000.0031  Runtime: 12  Spanish: no

The focus of this OSHA bloodborne pathogens training video is on three main points: awareness, PPE, and safe work practices. Blood borne pathogens awareness is focused on is by using universal precautions training, or by assuming that any blood that you come in contact with is infected with transmittable blood borne diseases or blood borne viruses. The PPE section focuses on wearing the right PPE in a situation with blood, and matching the type of PPE to the situation encountered. Essentially, you need to have an OSHA bloodborne pathogens exposure control plan. The maintaining safe work practices section details proper decontamination of any area touched by blood; whether it is the clothes that are worn, or the area of the accident. This bloodborne pathogens video also covers proper disposal practices as well as many other bloodborne pathogens safety issues.
Protecting Your Hearing
Product code: PRYH-4004.01.000.0022  Runtime: 13  Spanish: no
This slightly humorous film emphasizes the importance of hearing protection through the example of an elderly couple that worked in loud environments. One wore their hearing protection, the other didn't. This film makes a great point as to how important hearing conservation training can be, and even shows the correct way to insert ear plugs (trust me it is different than you would think). Make sure that proper attention is given to hearing conservation training and the PPE training associated with it.

Protection and Preparedness Against An Active Shooter
Product code: PPAS-4003.02.0183  Runtime: 10  Spanish: no

Reach Truck Safety
Product code: RTRS-4004.01.008.0008  Runtime: 8  Spanish: yes
This reach truck safety training video illustrates safe usage of a reach truck while explaining rated capacity, picking and placing loads, and clear racking. Quick, short, and to the point, this reach truck safety video is a must see!

Recognition and Remediation of Toxic Mold
Product code: RRTM-4003.02.033.0064  Runtime: 17  Spanish: no
Toxic mold is a problem making headlines everywhere. This video takes the mystery out of this sensitive subject and informs viewers of exactly what toxic mold is, the hazards involved and some possible solutions.

Reducing The Effects of Storm Water Runoff
Product code: RESR-4003.02.033.0057  Runtime: 17  Spanish: no
Storm water runoff is a major concern to our global environment, people, animals and ECO systems. This program will discuss wet weather discharges or storm water runoff. Covers a range of information, all related to what each person and organization can do to help reduce the harmful effects of storm water runoff.

Respirator Fit Testing and Training
Product code: RFTT-4003.02.033.0017  Runtime: 16  Spanish: yes
Respirator fit testing is essential to proper respirator use. This OSHA respirator training program covers the latest fit testing regulations for proper respiratory protection, and provides the information in an easy to understand way. This is a great respiratory protection video as respirator fit testing training is a valuable part of any good respirator program.
Respiratory Protection: Maintaining and Using Respirators
Product code: RPMR-4004.01.008.0019  Runtime: 12  Spanish: no
This intense 12 minute respiratory protection program covers everything you need to know about safely using respirators. Topics include: fit testing training, proper respirator selection, pressure checks, pre-use inspection, and many more OSHA respirator training subjects. This is an excellent, fast paced SCBA video.

Responsibilities of a Supervisor
Product code: RSPR-4003.02.033.0025  Runtime: 19  Spanish: no
Probably the most comprehensive supervisory training film in the industry. In just under 20 minutes this film covers all of the responsibilities of a supervisor, including safety concerns and their position regarding the employee/employer relationship.

Restaurant Safety and Orientation Training
Product code: RSOT-4003.01.033.0008  Runtime: 13  Spanish: yes
A great restaurant safety training film that many restaurant chains use as a new employee standard. In 13 min. it covers everything from knife safety, to preventing slips trips and falls, to fire prevention (including using the P.A.S.S. procedure for fire extinguishers).

Restroom Cleaning Safety
Product code: RRCS-4003.02.0184  Runtime: 1  Spanish: yes
Safe procedures for cleaning facility restrooms may not always be a matter of common sense. This video points out some of the not-so-obvious health and safety hazards and how to effectively avoid them when performing the various tasks involved in cleaning restrooms. Emphasis is placed on employee awareness and personal safety in dealing with potentially slippery surfaces, hard-to-reach and germ-infested areas, and disposing of sharp objects and other hazardous materials that may be encountered when cleaning a restroom.

Road Rage: Changing Your Attitude
Product code: RRCA-4003.02.033.0039  Runtime: 16  Spanish: no
Road rage is most often due to an inability to control one’s anger and frustrations behind the wheel. Use this film to help your employees realize how to better control their emotions, minimize the road rage, and manage anger constructively when faced with road rage. Viewers will be shown the various actions that often cause drivers to get angry, and how to deal with them so they don’t become dangerous incidents.

Road Rage: Highway Havoc
Product code: RRHH-4008.01.014.0003  Runtime: 22  Spanish: no
Of the 40,000 traffic accidents each year, 1/3 of collisions and 2/3 of deaths are due to road rage. As if those staggering figures weren’t enough to prove the importance of this issue, road rage incidents increase at about 8% each year. Use this film to help your employees discover the reasons that they may lose control of their emotions at the wheel, and to cut down on the driving actions that push others to a road rage state.
Roof Top Safety and Awareness
Product code: RTSA-4003.02.0189  Runtime: 8  Spanish: no

Working on towers is demanding and dangerous. This video offers training to help take the danger out of the equation. Video covers a comprehensive list of topics ranging from Pre-Work Inspection to Ascending and maneuvering on the tower. Special emphasis is placed on proper fall protection equipment and procedures. This program also details safe, proper rescue procedures for someone injured or otherwise in need of help on the tower. A great video for new or experienced tower workers.

Route Safety and Analysis For Solid Waste Drivers
Product code: RSSW-4003.02.033.0035  Runtime: 13  Spanish: no

THE film to watch regarding route safety for solid waste training. Short, comprehensive, and engrossing, the topics covered on this garbage truck video include: pavement damage, overhead hazards, loading docks, container accessibility, unsanitary conditions, hazardous waste.

Route Safety For The Sanitation Driver
Product code: RSSD-4003.02.000.0171  Runtime: 8  Spanish: yes

This Solid Waste route safety training video cover the in’s and out’s of driving a route each and every day. It focuses on acting professional and representing your company in a positive manner. Topics covered include: container parked cars blocking containers, pavement damage, trees in the way of a container, and much more. This film preaches the rule: REPORT EVERYTHING OR YOU CAN BE BLAMED!

Rumors, Gossip and Company Confidentiality
Product code: RGCC-4003.02.000.0123  Runtime: 18  Spanish: no

This film is fantastic! Don’t let the age of this video fool you, it gives many example how rumors and gossip can be detrimental to a business. Also covered is confidentiality and privacy issues.

Safe Backing Maneuvers For CDL Drivers
Product code: SBMV-4003.02.000.0151  Runtime: 11  Spanish: no

Backing a CDL trailer can be one of the most dangerous and intricate tasks a CDL driver must master. Because big rig backing is not an ability anyone is born with or learns when driving an everyday vehicle, this presentation serves to train drivers on all of the aspects they must know about their own truck in order to back it properly. Step-by-step instruction is offered for every type of truck, load, and situation. Emphasis is placed on the importance of practice in learning the highly skillful backing process.

Safe Braking Practices For School Bus Drivers
Product code: SBBD-4007.02.0043  Runtime: 1  Spanish: no

Safe Braking Practices For School Bus Drivers
Safe Braking Techniques For CDL Drivers

Product code: SBTQ-4003.02.000.0152  Runtime: 10  Spanish: no

The single most important component in any vehicle is the braking system. Braking is even more important for CDL drivers because of the weight of their vehicle and the skill required to ensure safety and prevent jackknifing when braking. In this video, CDL drivers will be shown the A-Z of braking including instruction on every possible type of braking system in CDL vehicles. Specifics on the mechanics of each system will be discussed so that drivers will gain an understanding of their braking system from an inside-out perspective.

Safe Food Handling: Preventing Food Borne Illness

Product code: FHPI-4003.02.000.0160  Runtime: 10  Spanish: no

Safe Food Handling: Preventing Food Borne Illness

Safe Handling, Storage and Use of Compressed Gas Cylinders

Product code: SHGC-4003.02.033.0058  Runtime: 9  Spanish: yes

Compressed gas cylinders can cause massive property damage and injuries if handled improperly. This video explains how to move cylinders safely, proper storage, and general safe handling procedures.

Safe Lifting For Office Workers

Product code: SLOW-4003.02.033.0075  Runtime: 8  Spanish: no

This lifting safety training video was developed for office workers who need to be trained in safe lifting techniques. The back safety video educates on how the back functions, and using safe lifting techniques. Help your employees learn the OSHA lifting techniques and make sure that they are lifting safely from now on.

Safe Operation and Use of Pneumatic Tools

Product code: SOPT-4003.02.000.0087  Runtime: 6  Spanish: no

This film helps to train employees on proper safe pneumatic tool safety. Whether using a nail gun, a drill, a grinder, or any other tool connected to compressed air, this video is for you.

Safe Railroad Crossing Procedures for School Bus Drivers

Product code: RCSB-4007.02.001.0023  Runtime: 21  Spanish: no

Railroad crossings pose a unique hazard to school buses, which is why they must stop at each crossing for the utmost safety. In this video, school bus drivers will be instructed on how to properly operate and various types of railroad crossings, what to avoid, as well as the details of what to do when the bus is stopped at the crossing.
Safe School Bus Crossing Procedures

Statistics show that most school bus accidents occur when students cross in front of or at the rear of a bus. This training video presentation will assist school bus drivers to learn the safest procedures for crossing students in front of or to the rear of their school bus. This comprehensive training will be facilitated by two certified school bus driver instructors in this four-part presentation that will include training on general safety procedure, five point mirror checks and lighting checks, proper loading and unloading procedure, as well as how to handle special circumstances.

Safe Turning Procedures for School Bus Drivers

In this presentation, school bus drivers will be shown effective real-example based strategies and methods for effective turning techniques while driving their school bus. This is an important training video for any school bus driver, as effective turning is one of the most integral parts of operating a school bus safely.

Safely Navigating Intersections For CDL Drivers

Intersections are extremely dangerous and every driver passes through many of them each day. In this training program, CDL drivers will be trained on how to be responsible for negotiating each intersection safely so as to not harm themselves or anyone else on the road. Quick safety tips will be given as well as real on-the-road examples of what to do in various situations, and how to prevent dangerous incidents.

Safely Reporting Child Abuse: It Depends On You...

The National Centers for Disease Control recently labeled the mal-treatment of children as a substantial public health problem. Child abuse and neglect are increasing at an alarming rate. Child abuse has no racial or socio-economic boundaries. It can happen in any neighborhood, any community. This program describes the various forms of child abuse, the signs and indications, and the circumstances for reporting it. Included are an overview of the relevant laws and discussion about an individual's responsibility for reporting it--both for mandatory professionals and for people who are simply concerned neighbors, family members, etc. Viewers are given guidelines on reporting child abuse for various situations and are encouraged to speak up. The program helps to open up discussion and promote action around this highly emotional topic.

Safety Awareness II: Real Accidents, Real Stories

Safety is an integral part of any job. In this safety training video we will follow the personal stories of workers who have experienced the life altering results of lack of general safety awareness at work. Each story gives us a different perspective and will show just how important it is to stay aware and in compliance with safety procedures at all times. Viewers will learn the importance of safety training as well as the use of personal protective equipment (PPE), general safety awareness and environmental awareness in the workplace. Most of all this video gets to the root of most safety accidents: becoming complacent.

TOPICS SUMMARY: BACK SAFETY, HEARING PROTECTION, SLIP TRIPS AND FALLS, LADDER SAFETY, GENERAL SAFETY AWARENESS
Safety Awareness: Real Accidents, Real Stories
Product code: SARR-4001.05.033.0002  Runtime: 14  Spanish: yes
This high impact, graphic production has injured workers tell their story on how they became complacent and got hurt. It also displays dramatic pictures of actual injuries of mangled arms, hands, and legs to show employees what can happen if they do not pay attention to safety in the workplace.

Safety Awareness: The Most Horrifying Accidents You’ve Ever Seen...
Product code: SAHA-4003.02.000.0092  Runtime: 9  Spanish: no
This safety training video is not for the faint of heart. As the title suggests, this safety video uses shocking and graphic photos and video to get the message of safety awareness across to employees. Safety topics that were ignored and resulted in the accidents shown on the film are: PPE training, good housekeeping, ladder safety, chemical safety (Hazcom training), and of course, safety awareness and complacency issues.

Safety Behavior: Reducing Unsafe Acts
Product code: SBRU-4003.02.033.0001  Runtime: 11  Spanish: no
A quick workplace safety video used to point out the unsafe acts that employees take on a daily basis. As the large majority of accidents are due to unsafe actions of employees, this is a great safety training video to reduce complacency.

Safety Guidelines for Every Employee
Product code: SGEE-4002.01.001.0011  Runtime: 11  Spanish: no
Designed for the purpose of helping employees to acclimate to workplace safety and OSHA guidelines, this safety video is packed with OSHA-friendly terms and safety procedures for new employees. It includes information on the use of personal protective equipment (PPE), hazard communication (Hazcom), the need and right to know of all possible hazardous substances on site (MSDS), good housekeeping, proper labeling and handling of hazardous substances in the workplace, and bloodborne pathogens exposure training. The health safety video starts employees on the road to achieving the utmost safety and OSHA compliance in their workplace.

Safety Orientation For Custodial Services and Maintenance Personnel
Product code: CSMP-4003.02.000.0099  Runtime: 12  Spanish: yes
Every topic that you could wish to orient a new maintenance employee to is mentioned in this short 12 minute video. PPE, MSDS, electrical safety, ladder safety, drug abuse issues, machine guarding, lifting, unsafe acts, fire prevention, back and lifting safety, and even safety awareness is covered. This is a great new employee training tool, and is perfect for new hire onboarding.

Safety Orientation for School Bus Drivers
Product code: SOSB-4007.02.001.0026  Runtime: 22  Spanish: no
Every bus driver has the potential to face an emergency crisis at some point in their career. This video is designed to prepare school bus drivers for the multitude of possible emergencies that they may face on the job, including bus evacuation, intervention strategies, how to safely cross students, and how to diffuse violent situations.
Safety Techniques for Special Needs Bus Drivers

Product code: SNSB-4007.02.001.0025  Runtime: 24  Spanish: no

A student-friendly, kid-friendly presentation that shows students who ride the bus how to protect their own safety before, during, and after their bus ride. Students will be shown how to safely get on and off the bus, as well as how to safely cross ahead of or behind a bus, and much more. This video shows students how to avoid unsafe acts and remain safe while riding the bus.

Safety Techniques for Tying Down Wheelchairs

Product code: WCSB-4007.02.001.0033  Runtime: 19  Spanish: no

Special needs bus drivers must learn how to handle many tasks, one of which is proper tie down of their passenger's wheelchairs. In this video, drivers will be shown the way to properly tie down a wheelchair, the possible hazards that can occur during tiedown, as well as how to inspect materials to make sure they are safe for use.

School Bus Emergencies: Make Seconds Count

Product code: EMSB-4007.02.001.0009  Runtime: 19  Spanish: no

The first moments following an accident are critical. This video focuses on training bus drivers on how to effectively and quickly react to emergencies. Bus drivers will be offered a number of actions to take in various scenarios as well as skills assessing damage and injuries, how to effectively communicate with parents and guardians of students, utilizing responsible student monitors, knowing which authorities to alert, and dealing with good samaritans. All aspects and details of what a driver may face and need to responsibly handle during a bus emergency or accident are covered.

School Bus Safety For Students

Product code: SBSS-4007.02.001.0028  Runtime: 14  Spanish: no

A student-friendly, kid-friendly presentation which shows students who ride the bus how to protect their own safety before, during, and after their bus ride. Students will be shown how to safely get on and off the bus, as well as how to safely cross ahead of or behind a bus, and much more. This video shows students how to avoid unsafe acts and remain safe while riding the bus.

Security Starts At The Front Desk In The Hospitality Industry

Product code: SSFD-4003.02.0180  Runtime: 8  Spanish: no

Security Starts At The Front Desk In The Hospitality Industry

Skid Steer Loader Safety

Product code: SKID-4004.02.000.0026  Runtime: 6  Spanish: no

Skid steer loaders are being used more and more often on today's job-sites. This film highlights some of the most important safety procedures and operational instructions to insure accident free usage.
Slips, Trips and Falls: Preventing Accidents
Product code: STFP-4004.01.000.0023  Runtime: 14  Spanish: no
This slips trips and falls safety training video separates itself from other films by focusing on the five most common areas of such accidents: parking lots, entrances, aisles, backrooms, and restrooms. With great information for any environment this film is a must have!

Slips, Trips and Falls: Stranger Than Friction...
Product code: FRIC-4002.02.001.0011  Runtime: 20  Spanish: yes
Slips trips and falls in the workplace are the cause of most incidents and injuries. In this story, we will follow a day in the life of Jim, an average guy who has no idea what he’s about to learn. As we follow Jim through an often humorous day, he learns the difference between slips trips and falls as well as how awareness, proper attention to surroundings and correct usage of safety tools can be the difference between a regular day and a life-altering situation. After this interesting adventure, viewers will have an understanding of the many ways they can prevent themselves and their coworkers from slips trips and falls.

Solid Waste Safety Orientation and Training
Product code: SWOT-4003.02.000.0115  Runtime: 10  Spanish: yes
This solid waste training program works as a great first waste management training video for anyone in the solid waste industry. It also works as a great re-orientation garbage truck video as it covers just about everything important to a solid waste driver. Also covered is fleet shop safety.

Solid Waste Safety: Commercial Pickup
Product code: SWCP-4003.02.000.0118  Runtime: 11  Spanish: yes
This garbage truck video covers the wide array of situations that commercial trash pick-up entails. Topics included on this waste management video include: safe backing requirements, container accessibility and many other topics for all types of solid waste vehicles.

Solid Waste Safety: Front Loaders
Product code: SWFL-4003.02.033.0060  Runtime: 13  Spanish: no
This garbage truck DVD covers basic operating procedures and techniques for front-end loaders and helpers. Information included on the waste management training video includes dumping procedures, hoppers, landfill dumping and general safe operating procedures when using this equipment.

Solid Waste Safety: Rear Loaders
Product code: SWRL-4003.02.033.0061  Runtime: 11  Spanish: no
This is a great waste management video for either the driver, or the helper on a rear loader solid waste truck. Topics on the garbage truck DVD include: truck operations, helpers, loading the truck, can sites, improper can sites, container blockages, landfill safety, dumping, and residential safety.
Solid Waste Safety: Residential Pickup

Product code: SWRP-4003.02.000.0117  Runtime: 10  Spanish: yes

Special attention has to be spent on residential trash pickup as people can appear out of nowhere and contribute to accidents. This comprehensive garbage truck video covers everything from backing safely (when no other option is available) to dealing with trash fires to any other residential solid waste training issues.

Solid Waste Safety: Roll Offs

Product code: SWRO-4003.02.033.0063  Runtime: 15  Spanish: no

Dealing with roll off containers can be a tricky job as mistakes loading or unloading the container are usually serious. Use this garbage truck video to make sure that roll off container operation is done safely. Topics on this garbage truck DVD include: loading containers, cable type hoist, unloading containers, dumping containers, container spotting, compactor containers, and general safety techniques in regards to proper waste management training for using this equipment.

Solid Waste Safety: Side Loaders

Product code: SWSL-4003.02.033.0062  Runtime: 11  Spanish: no

Side loaders are convenient for solo trash pickup and have safety measures all their own. This garbage truck video covers such specified safety rules and many other topics as well. Topics covered on this garbage truck DVD include: operation of the side loader, dumping loads, special hazards and an extra emphasis on safe lifting. General safety operating techniques using this type of equipment are also highlighted to improve solid waste training.

Solid Waste Vehicle Safety: The Pre Trip Inspection

Product code: SWPT-4003.02.000.0116  Runtime: 8  Spanish: yes

Federal law mandates that solid waste vehicles perform a pre-trip inspection before going out on their routes each day. Use this garbage truck video to make sure your employees are doing the proper checks, no matter the type of vehicle or previous solid waste training that they have had.

Spanish Phrases for Safety: Fall Protection

Product code: SPFP-4012.01.000.0007  Runtime: 13  Spanish: no

Train your non-Spanish speaking staff to communicate with your only-Spanish speaking staff on the topic of fall protection with this excellent safety training video. This film does a great job engaging the viewer and even requires repetition of the words in Spanish out loud!

Spanish Phrases for Safety: Important Interactions

Product code: SPII-4012.01.000.0008  Runtime: 13  Spanish: no

This entire line of “Spanish Phrases” safety training videos are designed to allow non-Spanish speaking employees to communicate important safety rules and guidelines to those who only speak Spanish on the jobsite.
Spanish Phrases for Safety: Job Site Safety
Product code: SPJS-4012.01.000.0006  Runtime: 13  Spanish: no
This Fantastic safety training video educated non-Spanish speakers with the Spanish for the essential job site safety phrases. It is very engaging and requires repetition of the terms for better memory.

Spanish Phrases for Safety: Personal Protective Equipment
Product code: SPPP-4012.01.000.0005  Runtime: 13  Spanish: no
This great safety training film educates non-Spanish speakers on the proper Spanish names for each piece of personal protective equipment. It is very engaging and requires verbal repetition from the viewer. Think of it as a safety communication video that will help you make sure that everyone is safe.

Stairways, Ladders and Safety
Product code: SLAS-4004.02.008.0017  Runtime: 14  Spanish: no
Every year thousands are injured and hundreds die on ladders and stairways, so use this video to keep the accidents at your job to a minimum. Also covered are building your own stairways, ladders, and guardrails to fit your unique needs.

Stress Management
Product code: STRS-4003.02.033.0053  Runtime: 19  Spanish: no
A doctor talks for 20 minutes about the issue of stress. This could be the most important film that you ever buy. Stress can factor in to any conceivable problem that happens at work, and proper identification and handling of stress and various stressors is of paramount importance.

Supermarket Safety: Back Safety and Safe Lifting Procedures
Product code: SSBS-4003.02.000.0142  Runtime: 11  Spanish: yes
Back injuries affect every area of one’s life, both personal and professional. In this video, supermarket workers are shown how to prepare for work, and use proper movement techniques at work, as well as how to keep their backs fit so as to prevent back injuries at work as well as at home. Proper lifting techniques are covered as are certain things to avoid for the avoidance of injury.

Supermarket Safety: Box Cutter Safety
Product code: SSBC-4003.02.000.0144  Runtime: 13  Spanish: yes
Safety cutters, retractable cutters, old fashioned box cutters: No matter the type of box cutters that are used in your supermarket, this production trains on safe use and techniques for avoiding the obvious dangers of daily box cutter use. The emphasis is placed on employees taking responsibility for their own safety through safe use.
Supermarket Safety: Employee Orientation to Safety

**Product code:** SSEO-4003.02.000.0141  **Runtime:** 21  **Spanish:** yes

This program is designed to give supermarket workers a brief overview of their safety responsibilities on the job. Topics covered include prevention of slips, trips and falls, back injury prevention, preventing cuts and burns, food safety, hazard communication. Injury reporting will also be covered. An emphasis is placed on using good sense and judgement in every task at the supermarket.

Supermarket Safety: Preventing Slips, Trips and Falls

**Product code:** SSPF-4003.02.000.0143  **Runtime:** 10  **Spanish:** yes

The potential for slips, trips and falls in supermarket work environments is very high and comes in many forms. In this program, viewers will be trained on the many areas of risk in their workplace for slips, trips and falls as well as how to prevent them by understanding that certain factors can contribute to slips, trips, and falls, yet they are usually preventable as long as workers keep the controllable factors within their awareness and control.

Supermarket Safety: Safe Operation and Use of a Baler

**Product code:** SSSB-4003.02.000.0145  **Runtime:** 8  **Spanish:** yes

In this brief to-the-point program, employees will be shown the basics of using a baler safely as well as the many risks that come with using this powerful machine on a regular basis. Injury prevention is stressed and training is given on how following proper procedure can be the simplest way to avoid any trouble.

Tail Swing Safety for School Bus Drivers

**Product code:** TSSB-4007.02.001.0031  **Runtime:** 16  **Spanish:** no

Tail swing is an everyday part of every bus driver’s day. Knowing WHERE the tail of the bus is in relation to objects, pedestrians and other buses in imperative for the safe maneuvering of the bus in and out of parking spaces as well as around turns and near other cars and pedestrians. In this presentation, viewers will be shown how to ensure they are controlling the tail swing of the bus properly in both conventional and transit buses. Techniques will be shown step-by-step by a real expert driving instructor.

Taking Control of Workplace Violence

**Product code:** TCWV-4004.01.000.0029  **Runtime:** 16  **Spanish:** no

This video is designed to increase knowledge and awareness of how to control the risk of violence in the workplace. Viewers will be trained on how to spot early warning signs, root causes, managing the conflict resolution process, as well as how to handle workplace violence immediately in order to diffuse troubled situations and provide pre-emptive help for employees who are at risk. Additional topics include: effective hiring and firing procedures, how to use internal and external resources to resolve conflict, and much more.

Temporary Electricity Safety

**Product code:** TELS-4004.02.008.0007  **Runtime:** 16  **Spanish:** no

While providing great safety standards for electrical safety training, this film focuses on the subject of temporary electricity training and how to work safely with it. Covering everything from basic lockout tagout procedures, to teaching about GFCI’s, to making sure the electricity you are using is grounded, this electrical safety video has it all. The main focus is obeying electric safety and utilizing safety electrical equipment in a construction atmosphere.
The Basics of Working With Electricity

Product code: BWWE-4004.01.000.0035  Runtime: 13  Spanish: no

This phenomenal electrical safety training video imparts the basics electrical safety knowledge through the use of three modules. The three sections of the video are: how electricity works, how your body reacts to electricity, and how to stay safe around electricity. By using many different charts and graphs and filming in multiple locations, this is a safety video that is applicable to anyone, anywhere.

The Cause and Effect of Slips, Trips and Falls

Product code: CEST-4003.02.000.0129  Runtime: 11  Spanish: no

Slips trips and falls account for 20% of all workers compensation claims. Imagine being able to say that you single-handedly cut the workers compensation budget by 20%, it would be nice wouldn’t it? This fall safety training video states that 100% of all slip trip and fall accidents are preventable and are the result of safety rules and guidelines being ignored. This film covers slip trip fall safety as well as ladder safety and good housekeeping safety. Even 20% of your forklift accidents are due to the operator falling when they are getting on or off the industrial truck.

The Consequences of Driving Under The Influence

Product code: CDUI-4003.02.033.0040  Runtime: 10  Spanish: no

Ever wondered what really goes on in a police sobriety check? This video shows a cop going through the different field sobriety checks with a man suspected of being under the influence. Also it shows the consequences of driving drunk, both in your personal and professional life.

The Elements Of A Successful Ergonomics Program

Product code: ESEP-4004.01.000.0026  Runtime: 13  Spanish: no

85% of workers compensation claims have to do with musculoskeletal disorders. This video provides simple and complex solutions to deal with these ergonomic situations, as well as tips on how to monitor the progress of the changes that you have made. It is a great ergonomics video for office and manufacturing work environments. Topics covered include ergonomics in the workplace, break reminders, ergonomics posture, computer workstation ergonomics, repetitive strain injuries, carpal tunnel exercises, and typing posture just to name a few.

The Extreme Driving Quiz

Product code: EXDQ-4008.01.014.0001  Runtime: 45  Spanish: no

this amazing film covers drivers going the wrong way, dealing with road rage, driving distractions, escaping from a submerged vehicle, how to help someone that is trapped in a vehicle on fire, dealing safely with a carjacker, what to do if locked in the trunk of a car, how to handle a fender bender, what to do if the breaks fail, what to do when you meet a drunk driver on the road, what to do to try and stop your car from rolling over and what to do if it does, dealing with a stall on the train tracks, how to survive a pile-up crash that you are headed towards, how to handle extreme fog, how to survive being struck by lightning in a car, what to do when hail gets large enough to break your windows while driving, surviving a tornado about to hit your car, and helpful tips to deal with other situations that we all dread being in. With pictures and video of vehicles in these situations, this film is a must see for all drivers.
The Facts About Ticks and Lyme Disease
Product code: FTLD-4007.02.0036  Runtime: 16  Spanish: no

The Horror of Losing a Hand...
Product code: HRLH-4001.05.010.0014  Runtime: 11  Spanish: yes
Hundreds of thousands of people injure their hands at work each year and hand injuries make up almost one out of four workplace accidents. Utilize the graphic nature of this hand video to show your employees the horrifying reality of losing a hand and how important hand injury prevention and general hand safety really is. Highlight hand safety, hand injury prevention and hand injury safety with this excellent hand video.

The Horror of Losing an Eye...
Product code: HRLE-4001.05.010.0012  Runtime: 14  Spanish: yes
90% of all eye injuries could have been prevented. Teach your employees not to take healthy eyes for granted through the use of proper eye protection safety. This graphic safety training eye video depicts the devastating loss of an eye while teaching the importance of proper PPE training.

The Horror of Operating a Forklift
Product code: HROF-4003.02.000.0157  Runtime: 10  Spanish: yes

The Proper Inspection and Use of Scaffolds
Product code: PIUS-4012.01.000.0002  Runtime: 13  Spanish: no
This excellent scaffolding training video gives you the very in-depth rules to a scaffold pre-use inspection, and shows video of a team correctly inspecting a scaffold at a jobsite. All of the correct measurements are given, know matter what job you are performing from the scaffold. Phenomenal scaffolding safety tips are given for proper usage of a scaffold, even covering things that you would never think of. The video culminates in a quiz designed to test how well the viewer payed attention to the film.

The Proper Loading and Securing of Loads For Transport
Product code: PLSL-4003.02.0198  Runtime: 11  Spanish: yes
The Roles and Responsibilities of The Professional School Bus Driver

Product code: RRBD-4007.02.0038  Runtime: 22  Spanish: no

The Safe and Proper Use of an Aerial Lift Platform

Product code: SPAP-4003.02.000.0159  Runtime: 15  Spanish: no

The Safe Loading and Unloading of Delivery Vehicles

Product code: LUDV-4002.02.001.0013  Runtime: 16  Spanish: no

Delivery drivers are in the top 10 of the most dangerous jobs in America, according to the U.S. Bureau of Labor Statistics. Because delivery drivers spend most of their time working alone, knowledge and responsibility for their own safety is imperative to incident prevention. This presentation serves to train delivery drivers on how to be responsible for their own safety as they move through their day, deliver goods, and load or unload their vehicles. Viewers will learn delivery driver risks, how to prepare and secure a load, safely remove the load at delivery, and what to be aware of during loading and delivery. Tips on topics such as ergonomics safety, material handling safety and hand truck safety will be offered to teach the balance between safety and efficient completion of everyday delivery duties.

The Safe Operation and Maintenance of Dump Trucks

Product code: SODT-4003.02.033.0031  Runtime: 14  Spanish: no

Dump truck are a necessary and versatile vehicle for many work situations. The wide array of potential dump truck applications therefore requires an increased amount of knowledge in maintenance and safe operation of these multi-purposed vehicles. This video emphasizes what is different in dealing with a dump truck, as compared to working on or with a normal vehicle, as well as proper operation and detailed maintenance for these powerful machines.

The Safe Operation and Use of a Baler

Product code: SOUB-4003.02.000.0093  Runtime: 6  Spanish: no

Provides good information for proper baler safety. Gives examples and shows proper usage of a cardboard baler in the baler DVD.

The Safe Operation and Use of Hand and Power Tools

Product code: SOHT-4003.02.000.0088  Runtime: 13  Spanish: yes

Most people are so comfortable with hand and power tools that they don’t take safety into consideration when using them. Use this video to remind them of some of the lesser known safety guidelines regarding tools from wrenches to power drills.

The Safe Operation and Use of Ladders

Product code: SOUL-4004.02.0029  Runtime: 16  Spanish: no

The Safe Operation and Use of Motor Vehicles

Product code: SOMV-4003.02.033.0023  Runtime: 19  Spanish: no

This film looks to point out many of the lesser known safety issues drivers face out on the road. This includes coverage of on/off ramp safety, choosing the safest lane in which to drive, tool roads, as well as pedestrian and crosswalk safety. This drivers training online safety video is an informative film with real life example footage of things like following too closely, vehicle braking distance, distractions while driving and many other poor driving habits.

The Safe Operation and Use of Overhead Cranes

Product code: SOOC-4003.02.0175  Runtime: 16  Spanish: yes

The Safe Operation and Use of Portable Grinders

Product code: SOPG-4003.02.033.0033  Runtime: 12  Spanish: no

Grinders and abrasive wheels are common and dangerous tools. If improperly used, grinders can explode like hand grenades and abrasive wheels fall apart. This video covers the proper inspection and use of a portable grinder, and how to avoid disintegration of wheels.

The Safe Operation and Use of Tractors

Product code: SOUT-4003.02.033.0044  Runtime: 15  Spanish: yes

If you use any type of tractor then this is the tractor video for you. This comprehensive tractor safety video covers all tractor operation, as well as PPE issues, and is so detailed that they talk about hand signals a helper gives to the tractor operator. If tractor training is an issue with your employees, the utilize this tractor online safety program to instill the habits that you desire in your employees.
The Safe Operation and Use of Welding and Cutting Equipment

Product code: SOWC-4003.02.000.0110  Runtime: 9  Spanish: no

In addition to being a phenomenal welding and cutting safety video, this welding safety video touches on required PPE for welding, as well as how to weld and how exactly welding works. It also touches on what to do in welding emergency situations.

The Safe Operation of Commercial Lawn Mowers

Product code: LAWN-4001.05.033.0013  Runtime: 12  Spanish: yes

Viewers of this landscaping video will learn the importance of following safe operation rules while operating commercial lawn mowers. Basic maintenance and storage procedures will be shown, as well as discussions of both what to do before the mower has started and how to remain safe while the mower is in operation. The landscaping training video also includes overview of how to dress for the job, using and choosing the proper PPE, and outlines the ways to spot and avoid a host of possible operator and machine hazards.

The Safe Operation, Use and Care of Knives in The Kitchen

Product code: SOKN-4003.02.000.0107  Runtime: 8  Spanish: yes

Knife use is essential in any kitchen, so proper use of these potentially dangerous tools is important. Wearing the proper gloves, sanitation issues, and box cutter safety are also mentioned. A superb short film! A must see for anyone working with or around knives.

The Safe Use and Operation of Utility Carts

Product code: SOUC-4002.01.001.0001  Runtime: 9  Spanish: yes

Utility carts are presumably one of the safest means of transportation, often utilized for various purposes within many organizations. However, without proper training and implementation of inspection routines, these otherwise efficient carts can result in accidents involving property damage and serious personal injury. This engaging training video will instruct viewers on how to specifically avoid these dangerous misfortunes. Providing crucial information to either new, or experienced utility cart drivers, “The Safe Use and Operation of Utility Carts,” will present safety practices, critical knowledge and inspection precautions, that should be used by all authorized utility cart operators.

The Safe Use and Operation of Utility Carts

Product code: SOUC_Z-4002.02.001.0001  Runtime: 9  Spanish: no

Utility carts are presumably one of the safest means of transportation, often utilized for various purposes within many organizations.
